

## Accident . . .

(Continued from page 1)

2, and Scott Hoyer, 5, children of Mr. and Mrs. Roy Hoyer, 21225 Anza ave.

Youngsters, according to police reports, were crossing the street. James E. Smith, of Hermosa, had rolled his car to a stop in order to let the children pass.

Page reportedly did not see the youngsters as he came down the adjoining lane and they crossed in front of him.

Compound Fractures  
Both youngsters suffered compound fractures of the right leg, multiple bruises and cuts, and possibly internal injuries, according to the mother.

The boy, according to Mrs. Hoyer, will have to remain in traction for six weeks in Harbor General hospital and will be laid up another six months after that.

The girl, who underwent surgery, will not be in the hospital quite as long, but will probably be laid up at home six months.

The Hoyers have three other

children, Linda, 10, Shelley, 3½, and Steven, 8 months.

Shelley, born crippled, has undergone surgery three times, and is due for further surgery, the mother said.

The family moved to Torrance from Utah about a year ago. Hoyer is employed at Armored Luggage.

Mrs. Hoyer felt bitter about the death-tempting Torrance-Anza intersection. "The residents here have petitioned the council and tried and tried to get a signal and a cross walk here. But all they tell us is that the city doesn't have any money. All our neighbors are indignant," she exclaimed.

## Basebags Bag 'Burgers' In Girls Ball League

There were only three games played last week in the Girls Softball League. The first one, between the Basebags and the Hamburgs, saw the Basebags bag their first win of the young season, 23 to 12.

The winning pitcher was Darlene Ronning, who gave up 12 hits, but her teammates were collecting 17. The big hitters for the Basebags were Rosie Theodosis, Joyce Ewart, and Diana Mitchell, who each hit safely 3 times. For the Hamburgs, V. Lucero banged out a home run in the third inning with 2 on.

3rd base for the Hotshots hit 3 or 4, drew one walk, and scored 4 runs. The Hotshots pulled the only double play of the game when their right fielder, Frances Reid, caught a fly ball, then threw to first base doubling off the runner there.

Esabs Beat Bruins  
The third game saw two undefeated teams, the Bruins and the Esabs, battling neck and neck for five innings. At the end of that time the Esabs were two runs ahead, 12 to 10. This was a well-played game, with not too many errors, and lots of solid hitting.

The Bruins outthrew the Esabs 10 to 13, but left 5 runners on base, while the Esabs left only

3 stranded. Judy Clements, shortstop and manager of the Esabs, continued her batting record of hitting a home run in each game so far.

She hit her last one to lead off the 3rd inning. Carla Babb was the winning pitcher, but the pitcher for the Bruins did some fine pitching, too.

Marsha Post, left fielder for the Bruins, and Dorothy Searles, first baseman, both homered with no one on.

These two teams meet again later in the summer for another real battle. The game between the K Kids and the Duffers will

be played Monday, July 8 in Redondo at 7 p.m.

Place	Won	Lost
Esabs	3	0
K Kids	2	0
Hotshots	2	1
Bruins	2	1
Duffers	1	1
Sureshots	1	2
Basebags	1	2
Hamburgs	0	3

## DR. HULL RETURNS TO WORK

Dr. J. H. Hull, superintendent of schools for the Torrance Unified School district, returned to work again this week, following his convalescence from a heart attack suffered two months ago. The educator will be in his office two hours a day at first, then longer, until he reaches his regular eight hour work day.

## Parking . . .

(Continued from page 1)

district plan and explained the changes.

Exclusion or modification of certain sites were based on cost, proper size, and nearness to the shopping area.

A 90-foot frontage, Dorsey pointed out, represents waste because it cannot be properly parceled for cars.

Lots outside a 300-ft. walking distance to town are equally impractical, unless used for fringe area parking.

Key to the whole parking development are the lots adjoining the Bank of America. The Mayor Creamery property there is to be acquired and developed jointly for deck parking purposes eventually with the Bank of America lots.

Also figuring in significantly is the Torrance blvd.-Cabrio ave. corner which is to be redesigned for easy ingress and egress to and from the city. Corner lots (including the church property) are to be developed for parking purposes.

Redesigning the street will not have to await the formation of the district and is already being worked on.

Cost of the district will come to about \$500,000 and will produce about 300 parking spaces.

Dorsey recommended against acquisition of the Richfield gas station in downtown Torrance.

## Airport . . .

(Continued from page 1)

available for counsel the various departmental heads of the city." He commented further:

"The airport manager should be a city employe though not necessarily under Civil Service. The other employes would be under Civil Service."

**Accomplishments Listed**  
In listing the commission's accomplishments, Crain praised the preparation and approval of a master plan for the airport and the retail and industrial development of the fringe sites. Crain indicated that he has personally worked hard to promote the airport and to improve its operations.

"It has been my pleasure to hand out more than 1500 business cards listing my affiliation with the city, a businessmen's club of over 600 members. I have circulated among industry more than 2000 announcements of my association with the commission . . . This was my advertising medium towards inducing business firms to locate at the airport."

Crain expressed that he was "pleased" that the commission adopted "efficiency measures" which he recommended.

He mentioned the mimeographed form for T-hanger applicants and the field location identification system.

## Mailman . . .

(Continued from page 1)

Sereno and Chuck Beckers of 5001 Via El Sereno were credited with pulling the dogs off Jensen.

"I was fighting off the dogs and hollering for help," Jensen recalls, "hoping that someone would hear me."

Jensen said that his left hand is in pretty bad condition, and that he is unable to move it. He can move his right hand only slightly.

"I won't be able to work for quite some time," he said.

The female boxer, Jensen indicated, just had a litter of puppies. She is being kept under quarantine at the home while the male boxer is under observation at the South Bay Humane society.

Jensen and his wife, Judy, have two children, Kerry, 2, and Chrystal, three months. He has been with the Post Office since September 9 and had the Hollywood Riviera route about two months.

About a month ago one of the dogs bit him on the thumb.

"From now on I'll call the police if I ever have trouble again," Jensen said. "I hope this will serve as a warning to others and help them."

He is planning to go back into the postal service when he is well.
