

**Play Day Held For Children**

Recently 140 children from grounds, met at Dominguez Elementary school for a play day under the direction of Harry W. Phillips, physical education supervisor; and his South Elementary district staff.

**School Reporting System Gets General Overhauling**

A change in the reporting procedure at local schools was given its first reading at the last meeting of the Board of Education.

The program calls for the following:

1. A group conference, or an adequate substitute, should be held by the end of the first school month.

2. A first report is to be completed by the first Friday in December (this report includes both the written progress report and an accompanying oral conference).

3. A second reporting period is to be completed by May 1. This written report is to be accompanied by interpretation at the oral conference.

4. A final class assignment is to be made at the end of the year.

Parents may request additional conferences as needed. Conferences may also be initiated by teachers. Duplicate copies of the written report are to be kept on file by the school district.

The scheduled change will prevent issuance of any written reports without the accompanying oral conference to clarify or interpret the written statements.

This will not increase the number of reports nor the number of conferences but will pre-

vent misinterpretation of an isolated written report, according to Dr. Al Posner, assistant superintendent, educational services.

The progress report form is to be given to the parent either at the time of the conference or immediately preceding it. This will permit both parents to discuss the written report and raise questions at the time of the oral conference which is held a day or two later.

A guide is being developed for teacher use in preparing the written reports. It will contain the proposal that letter grades (A, B, C) be issued at 7th and 8th grade levels when requested by parents.

**Hahn Urges More Funds For Freeway**

County Supervisor Kenneth Hahn this week urged Robert McClure, member of the State Highway Commission who represents Los Angeles county, to budget construction funds so that the next section of the Harbor Freeway can go to contract at the earliest possible date.

In talking to McClure, Supervisor Hahn pointed out that the plans for the section of the Harbor Freeway between 124th and 190th streets are complete and that 98 per cent of the right of way has been acquired.

"I believe that the Harbor Freeway should be completed as rapidly as possible because of the heavy traffic demands on it and the next portion is ready to go to contract as soon as the funds have been provided," Supervisor Hahn stated.

This past week Supervisor Hahn received a letter from Charles Welton, secretary-manager of the Gardena Chamber of Commerce, and a resolution adopted by the Torrance City Council urging that the next link of the Harbor Freeway be completed at the earliest possible date in order to provide relief from traffic congestion.
