'Light Up the Sky' to Close This Week

A new veteran character actor making his first appearance in Torrance is appearing in Accent Theatre's current production of "Light Up The Sky."

Although he is foreign born he has lived in this country for well over 50 years and has taken part in numerous plays in the South Bay area. With the help of Frank Fallon who operates the local Humane Society, the group was able to obtain him. He often steals a scene on stage and will have to be removed so that the audience can hear the script without the interruptions of the various parrot calls. He greets the actors with a "hello", bids them "good-bye" when they leave, and speaks numerous other lines. This outstanding actor is a parrot named Elvis and he has completely charmed his admirers.

His associate actors are: Mal Sagenkan, Julie O'Neill, Cy Kellogg, Lee Oberhitzer, Warren Delter, Beverly Dyer, Pat Gray, Curt Mobley, Warren Lavendar, Bob Kelsey, Charles Brannen.

The play is being held over for Friday and Saturday of this week, at the Torrance Playhouse, El Prado and Carillo ave.

DEAR EDITOR...

Traffic Hazard

Editor,
Torrance Press:
Thank you for your letter of July 26 calling our attention to the editorial in the Torrance Press of July 25. Our Traffic Department has studied Vermont avenue and recommended several installations to regulate traffic. The problem is to keep traffic flowing and still maintain the safety features.

I only wish there were some way we could get the drivers to realize that a great many accidents are caused by carelessness which no laws or traffic devices will eliminate.

A great many accidents occur at places where every traffic safety measure has been utilized and direct violations are recognized at the time of the accident.

In the city part of the strip, down around Lomita boulevard, we have installed four left-turn lanes and provided other facilities
