Mint topping

Speediest way to make a delicious mint topping for chocolate ice cream is to chop six mint bars and combine the candy with 4½ tablespoons coffee cream. Cook in top of double boiler over hot, water until candy melts, stirring frequently.

he had a right to be heard. Jahn then demanded that Blount prove conflicting interests or refrain from making the charge.

Blount to Prove Charge

Following the meeting Jahn said, in answer to questions about Blount's charges, that these charges by Blount are not new. He added that Blount has repeatedly made them, but has failed to substantiate them in any way.

Blount meanwhile indicated he would prove his charges that conflicting interests exist in the "official family."

Grace Period ...

ettes who enforce parking regulations in the area would insert a penny in the meters where a car is parked overtime.

A card would be placed on the windshield of the car to inform the driver that the extra 12 minutes was provided by the merchants.

Cars parked over the 12 minute limit would receive a citation.

John Crain ...

complishments of the NTCLA in the past few years, spoke briefly on projects currently before the group, and plans for the future.

"Recently," he said, "while acting as President in John Kesson's absence, I appointed a committee to investigate available land suitable for a building site. We have approximately \$3000 in the Youth-Adult Recreation Building Fund and I have high hopes of acquiring a building site during the next year."

Chairman Needed

It was Crain's personal opinion that the one Chairmanship that needed the most consideration was that of Recreational and Educational Committee. "I want a man who is currently working with youngsters and knows at first hand the local situation. If I can find such a man available."

The North Torrance Civic Improvement Association is the largest and most active of the Civic groups in the local area, if not in the entire State. "We have over 300 members. This represents a growth of more than 300 per cent in the past year and a half." It was Crain's belief that this was largely due to three things, the sound foundation set by the original organizers of the association, the tremendous growth of the area, and realization upon the part of the people that a city experiencing such a rapid growth needs every assistance it can get if the area is to be developed wisely and North Torrance is to receive their fair share of their tax dollar. "Why, when we first moved to Torrance a little more than for years ago, the population was 36,000. Now, we have that many people in North Torrance, alone, and an estimated 60,000 potential within five years at our present rate of growth," he said.

Other problems Crain hopes

health officer and his field inspectors. The Health department stands ready to provide householders with any information they may need, in addition to receiving and adjudicating complaints regarding the service rendered by collectors.

The Health department urges that all householders in the unincorporated area who have not yet made arrangements for collection services to begin not later than October 1, do so at once.

Names and phone numbers of private collectors may be obtained by telephoning the nearest County Health Center.

Definition

This ordinance defines "combustible rubbish" as "... all discarded combustible material, including, but not limited to, papers, rags, household bedding, excelsior or other packing material, cartons, boxes, and containers of wood or fibre, sawdust, shavings, lumber scraps, wood, or wooden articles, trees, plants, vines, and the prunings thereof." Although it is the collection of this material that is necessary as a result of the October 1 incinerator ban, the ordinance also sets up rigid standards for noncombustible refuse and garbage.

In addition, the ordinance provides that garbage must be collected not less than twice each week, and other refuse at least once a week, with no limitation on the amounts. Discrimination by collectors is forbidden by a provision that at least this standard service must be provided to any and all residences, as long as they are "immediately or reasonably adjacent to other locations served by the collector upon whom request is made."

to put before the group for investigation is an improved library program to provide longer hours and more selection of material for the users, resurfacing of many streets in North Torrance before the rainy season sets in, and the appointment of an Official Host and Hostess to represent the group in meeting all new residents of North Torrance to acquaint them with the activities of the Civic.

Past Presidents Aid Asked

All past presidents of the Association and Hamilton Black former Planning Commissioner, along with Frank Forve, attorney, are being asked to serve

on the Presidents special staff as advisors and to assist in representing the various matters coming before the City Council effecting the area. It is planned that a representative will be on hand at each and every meeting of the City Council and many of the meetings of the Planning Commission.

Saturday, September 28, the group will hold its annual Installation Dinner-Dance, commencing at 8:30 p.m. at the Western Club Cafe, 15516 South Western Avenue, in Gardena. Admission is \$1.75 per person, the public is invited.
