White Cane Week to Begin September 22

September 22-28 will be White Cane Week in Torrance. This project is taken on each year by the Lions club and all donations are used to help the blind or visually handicapped in Torrance.
 During the year of 1956-57 white cane money was used to purchase a Braille Writer for a blind child, and Electric-Magnet for removing steel particles from the eye, which was donated to the Torrance hospital, 70 free eye examinations for needy children, 60 pair of glasses given to children and money provided for eye surgery for two Torrance citizens.
 The Lions club also cooperated with the Torrance Unified school district for consultant services for eye conservation work.

Pledges Aid To Red Cross

Hoping to start a new trend in collegiate fraternity "hazing activities," Pi Lambda Phi at UCLA this week turned over its 15 pledges to the Los Angeles Red Cross Chapter as volunteer workers.
 "What used to be called 'Hell Week' is now termed 'Work and Recreation Week,'" said Bart Jacobs, fraternity president, "with at least one day devoted to some sort of community service."
 Pointing out that "volunteer organizations such as Red Cross can certainly use the help," Jacobs said that "this association with welfare agencies will help to instill a sense of obligation to the community as well as to Pi Lambda Phi."

Enlightening Pamphlet On Paraplegia

A paralyzed veteran owns the only hospital in his town. Aside from keeping the hospital running and conducting a polio clinic on the side, he's also chief surgeon, performing operations from his wheelchair.
 Another paralyzed veteran is a playground director, organizing play activities that have kept hundreds of youngsters off the city streets.
 Still another is a minister who preaches sermons from his wheelchair.
 Paralyzed Lawyer
 And the paralysis of still another has affected his voice as well as his limbs, so that he can speak only in a whisper. Yet, he learned to be a lawyer, and argues cases in a courtroom kept so quiet that his whisper can be heard.
 These and nearly 500 other cases are described in a Veterans Administration pamphlet—"Occupations of Paraplegic Veterans of World War II and Korea"—the first major study ever attempted of the work experience of paralyzed veterans.
 The pamphlet is on sale at the U. S. Government Printing Office in Washington, D. C., at 35 cents a copy. VA will use it in counseling and planning the vocational rehabilitation training of disabled veterans. It also should be useful to all in the field of rehabilitation and employment of the handicapped, as well as to the handicapped themselves, VA said.
 Paraplegia Explained
 Paraplegia, VA explained, results from a spinal cord injury that causes paralysis. Only a generation ago, before modern advances in medicine, it meant almost certain death. But today,
