

# THE NEW LINCOLN FOR 1958

...now styled and crafted in the classic Continental tradition

FIRST SHOWING of the new fine cars which will let you rediscover the rewards of exclusive fine car ownership

Today, you can see the most magnificent Lincolns ever built—inspired by the new Continental Mark III, and crafted in the tradition of every Continental ever built.

Longer, lower, and more spacious than any Lincolns before them, these cars have the clean, timeless character of the Continental in every classic line.

Inside, there is an elegance that is simply not found in any other motorcar.

The engine is new, the transmission is new, the suspension is new. And for an extra measure of lasting quietness, they are the only cars in their class with single unit body and frame construction.

By all means see these new Lincolns today.
