## All Quiet on Airport Front

A moratorium on flights in and out of the Torrance Municipal airport on Christmas and New Year's Day will be sought by the city council.

City Manager George Stevens was directed by the council to request all local pilots to keep their planes on the ground during the two days. The unusual council demand came after Vincent Lechner, of Lomita, appeared before the council Tuesday night to request the noflying appeal.

Lechner told the council that planes at the airport "are a nuisance at all times, but more of a nuisance during the holidays." He said four churches, and thousands of residents in the area would benefit by two days of "peace and quiet."
