 NEW Softness/Loudness Control SpecialMiddle range control! (NOT just a "volume control"!) th's no longer necessary to play the music loud in order to have high fidelity! With this new loudness control you can enjoy high fidelity music at a whispert . . . or, at normal room volume . . . or, at full concert levell

te enables you to "separate" the vocalists from the orchestral background, adding a new sensation to high fidelity listening.

It is infinitely variable to permit adjustment of tone to individual preference.

3 Special-O Special -Bass control! Treble control! te is infinitely variable to permit adjustment of tone to individual preference.
