

FOOD GIANT Gives You The

Food Giant Markets agree with scientists who say the moon is getting closer all the time. What the scientists mean, of course, is that scientific developments are bringing the moon into the range of man. We know nothing of astronomical science. However . . . when it comes to economic science, Food Giant can, figuratively speaking, hand you the moon on a wide-eyed platter. Why? Food Giant sells more groceries than any other market in the community. We buy more . . . can sell for less. Easy? You bet! And we have more fun than anyone doing it. Try us and see for yourself.
