

Pre-school Tea At Carl Steele

A pre-school tea to be held May 16 at Carl Steele School, will honor mothers of children who will enter kindergarten class this fall.

Mrs. Robert Walker, chairman, says that the tea, an annual affair, is planned with the idea of giving parents an opportunity to meet the teachers, become familiar with the school and learn the program. Parents who have children in higher grades will learn that there are new methods and programs. It is also that the mothers attending will enjoy meeting others with the common bond of a child entering kindergarten.

Hospital Patients to Enter Displays

Adding proportionately to the display of hobbies to be seen at the forth coming Hobby Arts and Flower Show, are the hobbies to be displayed by the patients in the Tuberculosis Ward at Harbor General Hospital. Approximately 25 individual entries are anticipated from this group.

Crafts are a part of the occupational therapy program which is medically prescribed to aid the recovery of the patients. The activities are first of all, relaxing. They take the patients mind off his disability and to something creative he can do.

It stimulates outside interests and gives the patients a feeling of "I can do this, even though I am sick" and in some cases helps them to earn a small amount to buy necessities.

All crafts which go outside the hospital for display are decontaminated for the safety of the viewers. The patients themselves do a great deal of work in the functioning of the department, which helps keep interest alive for all who participate.

Emil Setzlage is in charge of the Tuberculosis Service Occupational Therapy Department at Harbor General, and it is with his assistance and volunteer's help that the patients will be displaying their hand work at the Hobby Show in Civic Auditorium May 16, 18.
