## Jensen HIGH FIDELITY

**YOU'RE AHEAD WITH JENSEN AUTHENTIC HIGH FIDELITY!**  
Here is Jensen's finest line of new advanced-design loudspeakers for authentic high fidelity sound . . . the most complete range of types and sizes ever available. Established models offer further advances over their previously high standard performance. New UNAX, DUAX and Coaxial 3-element speakers deliver better sound at higher efficiency at lower cost than previous similar speakers. And the new TRIAX . . . another Jensen exclusive . . . now brings you a true 3-way speaker at lower cost than some with only two voice coils and driving system.  
Your selection from this outstanding group of speakers insures a maximum of fine authentic hi-fi sound. There are other speakers in Jensen's price range . . . none in its class.

**TRIAxIAL\* AND TRIAX\* 3-WAY SYSTEMS**  
The famous Jensen G-610A and new G-600 are genuine 3-way systems, the only speakers with three electrically and acoustically independent L-F, M-F and H-F channels for utmost balance, efficiency, smoothness and range extension to upper hearing limit. M-F and H-F sections both employ compression-driver horn-loaded units for low distortion and wide angle dispersion of highs. Separate dual crossover networks. M-F and H-F Balance Controls, fully wired. The ultimate in performance in a unitary speaker.

**COAXIAL 2-WAY SYSTEMS**  
Jensen "H" and "K" Series Coaxials are genuine 2-way with electrically and acoustically independent "woofer" and "tweeter". "K" Series uses direct radiator cone type "tweeters" for a maximum of value at low cost; they have integral electrical crossovers. KTX-2 Step-Up Kit will later provide compression-driver highs above 2000 cps. "H" Series is designed for ultimate coaxial performance; they employ the expensive through-hole compression-driver "tweeter" for maximum 2-way system performance and low crossover frequency (2000 cps). Full L-C crossover network. KTX-1 Step-Up Kit may be added later for range extension to upper hearing limit.

**COAXIAL 3-ELEMENT SYSTEMS**  
"CX" Series speakers are a combination of a compression driver superwoofer and a 2-element direct-radiator woofermid-bass. Electrical crossover is at 4000 cycles. Small diffusion radiator disperses and balances radiation from 2000 to 4000 cps. Three terminals for easy wiring of KTX-3 Step-Up Kit for later conversion to full 3-way system with compression driver mid-bass. A "box top" for maximum intermediate between DUAX and "H" Series coaxials.

**DUAX\* 2-ELEMENT SYSTEMS**  
"DX" Series speakers have two carefully coordinated cones driven by a single voice coil. Both operate together up to a "mechanical crossover" at 4000 cps; the small H-F radiator is effective above 4000 cps. May be expanded to 3-way system with compression driver "tweeter" with KTX-2 Step-Up Kit.

**UNAX\* SINGLE ELEMENT LOUSPEAKERS**  
A new high in single-cone single voice coil speakers with performance exceeding that of some speakers costing far more. Cone is specially designed so central sector radiates smoothly and efficiently at high frequencies. Viscous edge damping. KTX-2 Step-Up Kit may be added to make 2-way system.

\*High energy D.P.-Alnico-6. †Response to Upper Hearing Limit. Note: L-F response depends on enclosure. \*\*Order separately. See Page 8.

SPOTLIGHT ON **THE FISHER**

**THE FISHER "500"**

**SPECIFICATIONS**  
☆ Full wide-band FM detector ☆ Powerful 30-watt amplifier; handles 60-watt peaks ☆ Meter for micro-accurate tuning; pin-point channel indicator lights ☆ Tape recorder output and playback preamp-equalizer ☆ Uniform response, 16 to 20,000 cycles ☆ 4 inputs ☆ Output impedances: 4, 8 and 16 ohms ☆ 14 tubes plus 2 crystal diodes ☆ Beautiful die-cast brushed-brass panel ☆ SIZE: 13 3/8" wide x 13 3/8" deep x 4 7/8" high. WEIGHT: 34 pounds.

An extreme-sensitivity FM-AM tuner, a powerful 30-watt amplifier, and an audio control center—all built on one compact chassis! Simply add a record player and loudspeaker, and as easily as that you have a complete high fidelity system for your home. Its quality—in the finest FISHER tradition. Its appearance—the timeless beauty of classic simplicity.
