

How to make a teen-ager believe in Santa:

Give her a color telephone of her very own and you'll make her the happiest young lady in town this Christmas!

What's more, a phone of her own leaves mother's and dad's line free for their exclusive use.

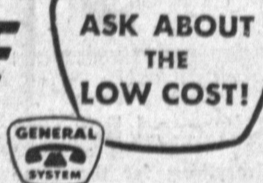

There's a choice of ten attractive colors to blend or contrast with

the décor of her room (or his). And the cost of an additional telephone, in color, is only pennies per day!

It's the easiest Christmas shopping you can do—and a gift that's appreciated all year. Just call our Business Office, and we'll do our best to arrange the installation at your convenience.

Here's what makes a Medallion Home your BEST new-home buy

(and your safest investment for the future)

When you invest in a home that has qualified for the Medallion award, you know it meets all these standards of better living:

1. Modern All-Electric Kitchen

Major electric appliances—including a built-in electric range and oven—are already installed in every kitchen of every Medallion Home development. They are part of the basic plan and cost in all Medallion Homes.

2. Wiring for Present and Future

"Full Housepower" wiring—required in every Medallion Home—means plenty of circuits for all today's electrical needs plus extra capacity for the many new appliances you will want tomorrow.

3. Lighting for Beauty and Eye Comfort

Every Medallion Home must provide lighting which is "easy on the eyes" two ways: It must permit you to use every room, hallway and entrance safely, comfortably and efficiently... and it must beautify those areas, too.

Resale value of a Medallion Home is protected, because a Medallion Home will stay electrically up-to-date in the all-electric future. (By striking contrast, two out of three new houses being built are already electrically obsolete.)

So look for extra-value homes which have earned the Medallion. No family should buy a home without it.
