★ REVOLUTIONIZES the WORLD OF SOUND

Now—the record industry has developed an amazing new stereo disc. It looks like the old LP record, but has two complete sound tracks. Your Stereo record changer combined with EMUD and Hi-Fi and stereo tone in turn has a special pickup that receives music from each track. These two separate streams of sound go to two separate speaker systems. The sound combines in your room to give you the most brilliant, 3-dimensional music you've ever heard!
