## Proper Dental Care Focused During Dental Health Week

"Unlock your smile!"

And the key to this is the toothbrush, properly used, according to the Harbor District dental society which, together with its parent organization, the Los Angeles County Dental Society, will be observing National Dental Health Week here through Feb. 14.

"The toothbrush is still one of the most powerful weapons against tooth decay," said Dr. Edwin L. Potts of Long Beach, district chairman for the event, in announcing dates for this eleventh annual observance. Activities in this community will be under the chairmanship of Dr. Robert W. Barrett. "Teeth are designed to last a lifetime," said Dr. Barrett. "A most important contribution to this is regular and proper brushing of the teeth. Dental Health Week, through its community-wide emphasis on the simple, basic rules of oral hygiene, is a means of focussing public attention on this and other fundamental methods of preventing dental disease."

## First Aid Class Offered Here

Red Cross officials announce a standard first aid class to be held at Arlington Street School, 17800 Arlington Ave., beginning Feb. 9, from 7:30 to 9:30 p. m.

James C. Sullivan will instruct the class, which will meet Monday evenings only over a five-week period.

This course is offered without charge as an educational service of the Red Cross made possible through voluntary donations to the annual campaign for funds.

## FISHING COURSE OFFERED

A new course in Fishery Resources will be offered by Harbor College on Tuesday evenings from 6:30 to 9:30 during the spring semester, according to an announcement today by Montague M. Wade, chairman of the Division of Natural Sciences.

Many community groups—schools, youth organizations, service clubs, churches, Parent-Teacher groups and others—have joined the dental society in helping to fight what, according to the dental associations, has become one of the major health problems of children, Dr. Barrett said.
