

National Supply Company to Enter Spectacular Exhibit in Oil Exposition

A spectacular exhibit, which applies world's fair showmanship to the demonstration of drilling and production equipment, will be presented by the National Supply Company at the International Petroleum Exposition, to be held in Tulsa, Oklahoma, May 14-23, 1959.

The exhibit will combine motion, color, lighting, cooling breezes and "restrained sound" in an attempt to catch and hold the attention of visitors and to keep them comfortable.

Visitors will be able to—Bask in the sun, sit in the shade, or take shelter in case of rain.

—See the world's as it might appear to someone in outer space.

—Watch a trained crew demonstrate one of the world's largest drilling rigs, a big rig that can drill more than four miles deep.

—See also a rig that can be separated into loads, light enough to be carried to remote locations by helicopter.

—See in action enough pumping units to pump several thousand barrels of oil during the

Housewife Bowl League Forming

A new bowling league for local housewives is slated to begin Tuesday under auspices of the Torrance Recreation Department.

Kegling sessions are slated for 9:30 a. m. each Tuesday for 11 weeks, with a charge of \$1.55 per meeting for three lines and league fee.

The league gathers at the Bowl-O-Drome, 21915 Western Ave., where a baby sitting service is available.

10 days of the show.

National Supply, which traditionally has one of the largest exhibits at the exposition, has more than doubled its space for 1959. Its 23,680 square feet will be devoted to such things as a fountain, a gently sloping ramp, and trees with benches around them.

A principal eye-catcher, visible from all parts of the exposition grounds, will be a world globe 30 feet in diameter, representing the international scope of National Supply's operations. Made of fiber glass plastic, the globe will rotate slowly on its axis.
