prove the difference

Expert Car Buyers choose Morris. The "Instant" Car. For these Reasons:

Sturdily Built

Decision engineered for long life, the Morris has extensive, overlaid body construction.

Greater Safety

Morris, the "Instant" Car, having a more stable center of gravity, gives you safer landing and more value for your dollar.

Parts Available Everywhere

Made by the British Motor Corporation, the "Instant" Morris is sold and expertly serviced in the U.S. by over 600 Morris dealers. Parts are "Instantly" available.

Honest Economy

In addition to its over 40-mile-per-gallon gas economy the Morris requires only 3% oil per gallon of oil per oil change (every 2500 miles)... and one gallon of antifreeze protects to -40°!

Morris... Why "Instant" Car?

We call the Morris the "Instant Car" because it's instantly ready to take the whole family and their luggage... instantly zips through heavy traffic, parks instantly... gives instant economy from the day you buy it. And the smart looking Morris is fun to drive.

A Morris For Every Driver

2-door sedans, 4-door sedans, convertibles and station wagons are available. And for commercial uses, Morris makes both vans and pickups... ideal for low cost delivery.

the Clincher

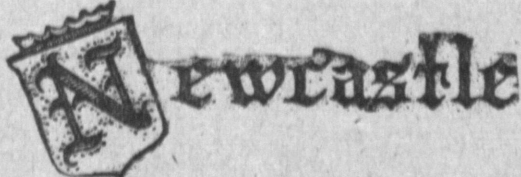

The U.S. Government and many private firms permit 8c per mile automotive expenses. An "Instant" Morris owner who drives 25,000 miles per year finds his car costs him less than a penny per mile for oil and gas. THEREFORE, HE SAVES 7c PER MILE... OR \$2,000 for 25,000 MILES... AND HIS NET PROFIT IS \$1750. In a year he has saved enough to buy an additional new Morris! BMC guarantees every Morris against parts failure for a full year.

A product of the British Motor Corporation, Ltd., makers of Austin-Healey, Austin, MG, Midget, Morris, Sprite and Riley Car.
