

## Faculty League Results

Peary Junior High's Faculty Basketball Team edged runner-up South High Party House "5" by a 42-46 score, at North High Monday night, to be assured of no less than a tie for the championship of the Torrance Recreation Department's Area Faculty League. A will over Pier Ave. in the 7 p.m. game next Monday, or Torrance High, on March 7, will clinch the title for the undefeated Gardena quintet.

Score by quarters:  
South High 13 9 6 14-42  
Peary Jr. High 13 7 14 12-46

Hawthorne 12 12 18 18-60  
Kahlo Realty 6 8 13 7-34

### Idleness Up for Month

California unemployment increased to 312,000 in January from 277,000 in December, but the current figure is 47,000 below a year ago.

The Southern California fresh water fishermen will gain a new warm water reservoir in Ventura County. It is called Casitas and is now being stocked with Bass, Walleyes, and Channel Catfish. It is expected to open in 1961 and should offer excellent fishing close to home. Almost 900,000 dollars are being invested in building boat ramps, docks, access roads, sanitary facilities, fencing and water mains. It should be a good fishing spot in overcrowded Southern California. I find many bass fishermen are quite like the fish they pursue. In cool weather they are slow to move and hard to awake. The fishing has really picked up but many fishermen are still waiting. What for? These are the same fishermen who come in around the last week in May and ask when the bass fishing will start. These are also the same people who complain the longest about the lack of places to fish. "Way back in the middle west where I come from we could lift off any manhole cover and have a limit of bass within the hour!" There is buses leaving every day. Many fishermen have been

coming in and asking where is all this fantastic breakwater fishing I keep writing about. Its no secret. Just rent a boat from Pierpoint or any Long Beach land and head out to the Federal Breakwater. You can fish inside or outside. Use a No. 6 hook a small split shot and a float to keep you off the rocks. Come in to Sportsville U.S.A. and ask for Mel. I will be glad to show you how to rig and where are some of the best spots. Many of the fresh water fishermen that I've sent out to the breakwater are making it a family trip and are never skunked. Can any other type fishing say the same?

The 1960 fishing regulations are out now and are available at all Sporting Goods stores free. Some of the important points follow.

Halibut, Limit 2. Salt water bass, Limit 10 must be 12 inches or better. Baracuda, Limit 10, not more than 2 fish in possession under 28 inches. White Sea Bass limit 10, not more than 2 in possession under 28 inches. These are a few of the most important rules and the ones most violated.

Bonito are the main attraction on the salt scene at present but look for a good run of Baracuda any time now. The bait is here and the water is warm enough to bring them in now. Last year at this time we started Baracuda fishing and we killed them at Rocky Point by bouncing white jigs on the bottom and reeling as fast as we could. This should pay off now on almost any boat for whites as well as baracuda. For more information call Mel at Sportsville U.S.A. FA 8-2173.

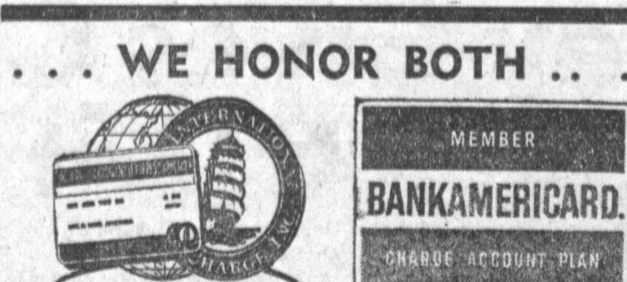

### DFG Sets Up Safety Classes

Planning to take your youngsters hunting next fall for the first time?

If so, now is the best time to enroll him in a hunter safety class.

That's a timely suggestion from the California Department of Fish and Game because right now many classes are open—just before the big fall hunting seasons come around they are apt to be very crowded.

How do you do it? Contact your nearest Fish and Game license agent, probably the sporting goods store, resort or bait shop where you bought your last hunting license.

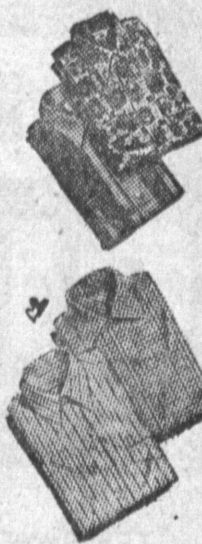

Yes, your International Charge or your BankAmericard are most certainly welcome at Try-It Stores. Take advantage of buying what you need now and enjoy easy, no-credit-minded terms. Ask about our Layaway Plan.
