### Students Make Food, Eat It

Two Torrance elementary classes decided that the "proof of a breakfast is in the eating."

After completing studies of health, the youngsters sponsored breakfasts to emphasize and show what they learned.

Students in Gloria Wade's third and fourth grade at Hamilton School and Marguerite Rosenberg's first and second grade at Jefferson School. Both classes served breakfasts to demonstrate the type of food necessary for a balance diet. Menus contained toast, juice, and milk, scrambled eggs, and cereal.

Jefferson students displayed health booklets and reported on experiments demonstrating cleanliness.

Mrs. Wade's class gave an original play on dental health. Taking part in the skit were Robert Stilwell, Cheryl Sandler, Kathy Taylor, Rhode Baskins, Jack Kamm, Ernie Bulacan, Dan Duncan, Lee Anderson, Janice Olson, Pam Schirman, Donnie Meyers, Ralph Moore, Deb Demberling, and Stephanie Hodgeman.

### RELIEF OFFERED WEARERS OF THICK-LENSED GLASSES

Freedom from the unpleasant appearance and burdensome weight of thick lensed glasses is now possible, according to J. M. Soss, optometrist in the Harbor Area for 32 years. Dr. Soss cites the opinion of eye authorities that most people suffering from far sightedness, near sightedness, astigmatism, keratoconus (swelling of the cornea), and postoperative cataract can enjoy improved vision through the use of new-type contact lenses. The field of vision is much greater and sight is clearer. Plastic contact lenses improve the appearance dramatically and the psychological effect on the wearer is amazing. Modern plastic "contacts" are easy to apply and they are designed to be worn comfortably all day. Dr. Soss suggests that those who are wearing thick lenses glasses stop in at his 1268 Sartori Ave. offices and find out how easy it is to wear contact lenses. There is no obligation, and no appointment is necessary. The phone number is FA 8-6602. Come in or write for fascinating illustrated booklet.
