Chandler's Sand & Gravel are just about assured of walking off with the winners trophy in the "A" Division of the 'Drome's Wednesday night Mixed Five. With only six weeks remaining of their winter meet, they are enjoying a big seven game lead over the rest of the pack. Baer's Draperies lead in second, followed by X-Ello Shade Co., Rossman Lumber, Rancher's Corner and Blue Diamond Mkt. Joe Cuc-ci, rolling with the Kott & Smol-ar quintet holds down the individual season series honors with his powerful 610&54-664 package, while Bob Good, Baer's Draperies kepler whipped up the mens high game mark of 277&6-283. ### All About Grunion

These elusive, unpredictable silver fish are found only on the coast of Southern California, from about Morro Bay, to Ensenada, Baja California. They may be found on the wet sand and after a wave picking a particular spot is almost impossible; you can't outguess these tiny fish. The month of June is considered the best open month for grunion hunting. The fish, which come in on extremely high tides to deposit their eggs in the sand, will usually be found in dark areas. These spawning periods (March, June, July and August, OPEN season) last three to four nights that follow the full or new moon.

Noise of any kind frighten the little fish and seem to transmit a signal to move to a more secluded area. Using a flashlight is useful, but should be used only when a wave has receded.

### Grunion Hunting Regulations

1. A valid California fishing license is required for persons 16 years of age or older.
2. Grunion may be taken on the beach or in the surf by HAND ONLY.
3. No appliance of any kind may be used and it is unlawful to dig holes in the sand to entrap the fish.
4. There is no bag limit.
