## OUTDOORS WITH MEL

BY MEL SALTZMAN

Every year thousands of new jigs, lures and feathers hit the market which will catch more fish faster and easier. Some are good, some not so good. Very few last thru several seasons. Recently I found a salt water and a fresh water lure which looked good and has since proven to be as good as they look. The salt water is called the Fluorescent Hi-Lite. It comes in 10 colors which probably all catch fish but the one pattern which has really proven its worth is a blue-green scale finish. I watched this jig being manufactured and the finish alone is a 16 coat process. We sold 4 of them to a group last week and they finish is a small boat near Venice. The group headed by Miss Judy Hecht and Mark Goldberg landed 36 Barracuda and 10 yellowtail all on this jig. Judy lead the parade with 5 yellowtail up to 12 pounds in weight. They worked equally good trolled and jigged of the bottom and also cast with a medium fast retrieve. Stop into Sportsville and see this new jig with fantastic fish appeal.

The other lure is called the Colonel. It seems to be mongrel because it uses some parts from several of the best known lures. It is made in several sizes and has caught bass, crappie, trout, bluegill, and several species of salt water perch. Its a worthwhile lure to carry in your tackle box.

Fresh water.

Cachuma, Good bass fishing-fish-averaging 2 pounds with some in the 4 pound class, lots of small bluegill for the kids, weather good, best lures bombers, helldivers and bottom bouncing jugs.

Big Bear good trout fishing, from shore and boat. Trout in the 1 1/2 pound class, Red eggs, cheese, and worms best bait. Super Duffers and Spinners best lures.

Lake Irving Trout fishing fair with one ton of trout planted every Friday, lots of bass in the lake but seem to be spawning and won't hit.

Henshaw-Bass fishing good with sub surface lures, lead heads, and rubber worms best. Bluegill and bullhead fishing good with crappie fair.

Isabella-bass fishing is at its peak with lots of limits of big bass reported-wind has made fishing hard for the weekend fisherman because this lake gets rough when the wind blows down from Walker Pass-Biggest bass ever caught last week-8 pounds 15-oz.

Salt Water Barracuda in the spotlight with good catches on fairly light loads from Paradise Cove to San Diego. Some yellowtail at Rocky Point and Horseshoe Kelp but they are touchy. San Diego is starting to show signs of a run of yellowtail with lots of fish spotted but few hooked. Eensendia is best for barracuda and some yellowtail but high winds make the long trip risky. For more fishing information and the best in tackle stop in a Sportsville U.S.A. or call Mel at FA 8-2173.

## Y Barra's Clout Edges Falcons

By John John Whitacre

Eleazar Ybarra's two run homer in the top of the fourth inning, broke up a see-saw ball game, and put the Torrance High Varsity baseballers, into a second place tie with the Losers Aviation 5-4.

Today coach Irvin Kasten nine travel to Culver City to meet the third place Centuars in another crucial game.

In Tuesday's game, THS started off on a whirlwind, when Bill Williams hit a two run homer, to spark a three run out burst.

Aviation went ahead with a four run inning in the Falcon hits and a walk, Dennis Hearn centerfielder drove in two runs with a clutch double.

Eight Tartars had one hit each, with Ybarra's blast in the fourth, meaning the ball game, all five runs and eight hits came off Ted Sprague who had previously pitched a no hitter against El Segundo.

Tom Richardson was credited with his third straight victory against one lost, he scattered five hits, walked three and fanned seven, to become the leading hurler in the Pioneer League.

El Segundo downed South High 3-2, in another first place battle, on the pitching of the fabulous Bob Flynn.

## Hogue Wins Pitchers' Battle, 1-0

Bennett Hogue of North High won a pitchers' battle over Dave Goodrich of Santa Monica, and the Torrance team triumphed 1 to 0 in a Bay League tilt.

In the third frame, Dan Patton got a hit took second on a fielder's choice and then came home on Dave Marsden's bingle.

## Barracuda Biting Hard at Redondo

Barracuda bit hard for ocean going fishermen in Redondo Beach waters this past weekend.

Blue skies, calm waters and hungry fish enabled 421 sport-fisher passengers to catch 803 barracuda, most of which were logs. Jackpots were 11 and 12 pounds.

Yellowtail were less active during the weekend for passengers on board Redondo's three sport-fishers. In the 10 weekend trips, 133 yellowtail were caught. Eighty-two bass and 7 halibut also were reported. Best boat fishing was off Rocky Point, near Redondo.

Fishing off three barges, located over the underwater Redondo Canyon, resulted in good catches of mackerel, bonito and some yellowtail.

## Jones and McCoy Top Entries for Ascot Feature Saturday

Parnelli Jones, Torrance, and Jack McCoy, San Diego, lead-foots, are the top entry for this Saturday nights Modified-Sportsman car races at the New Ascot Stadium. ## Vicki Van Hook Set for Ski Show

Neal Howard, Redondo Beach Chamber of Commerce Chairman for the 1960 Neptune Days Marinarama, announced that Southern California's most complete water spectacular will include a Water Ski Show on Saturday, June 18, 1960, 12 noon. Four top Southland water skiers are currently working on a spectacular demonstration which will take place in King Harbor.

Howard hastened to add that water skiing is not normally permitted in the Harbor and a special ordinance by the Redondo Beach City Council made it possible for visitors and citizens to enjoy this show. Many extra controls have been established to make the harbor safe for this particular activity.

The show under the direction of Dick Tomasello of Gardena will feature the Woman's Worlds Water Ski Champion, Vicki Van Hook. Miss Van Hook presently fifteen years of age won her title when she was eleven. The other three performers include Dick Rush, Long Beach, with bare foot skiing; Bob Haynes, San Pedro, Trick disc skiing; and Glen Voyles, Temple City, cuts and turns over slalom course. The four will work together to present formation skiing, pyramids, etc.

The Water Ski Demonstration is another new event added to the much expanded Neptune Days schedule which covers a full ten days of water activity between June 17 and 26.
