

## School Contracts Awarded to Provide Facilities for 25,000 Students in Torrance

Building activities loomed large on the Torrance Board of Education agenda Tuesday night, as the trustees acted to provide more classrooms and other facilities for the district's 25,000 students.

Actions included:

1. Bids were awarded to the Herbert J. Goldsworthy Co. for building the fourth unit of South High School, including two classroom wings and shop and music building additions.

Goldsworthy submitted the low bid of \$733,000.

Alternate bids for construction of stadium and related facilities were rejected because they were too high, according to architect's estimates.

Action on the stadium will be taken later. Completion probably will take about 10 months.

2. Start of site work on the West High School campus was authorized by the board. The site will be graded, with sewers, storm drains, streets, and related facilities prepared at a cost of about \$275,000.

Construction work will start in early 1961. The school is slated to open in September, 1962.

3. Preliminary plans for a new administration building and six more classrooms at Torrance High School were approved.

Final plans must be prepared, with construction slated in about six months. Completion is expected in about a year.

4. Final plans were approved for nine more class-

rooms at Crenshaw Elementary School, with bids to be sought immediately. Old wooden bungalows will be removed.

5. Complete removal of wooden buildings at Carr Elementary School was authorized by the board.

Since the Cal-Cor Corp. promised that classroom additions now under construction will be ready by September, removal of the old wooden buildings was approved.

6. Preliminary plans for additions to district office facilities were approved.

A number of new offices will be constructed, with work starting following preparation of final plans.
