### Border Market

(Continued from Page 1)  
incorporating the very latest in modern equipment and other features to make shopping a pleasure rather than a chore.

The store comprises 25,000 feet of floor space and provides parking for more than 200 cars.

Also included in the unit are all facilities for one-stop shopping service. A complete liquor department is being managed by Bill Patten, long time resident of the Torrance area.

Other units to be opening in this new center, developed by Bert Lynn, prominent Torrance resident, will be the Shelly Rx Drugs, Bay Cities Paint Co., Coronet Barber Shop, Coury's Cleaners and a Union 76 service station.

A new restaurant, soon to be completed, will be opened later.

### Miss LA County Contestants Signing Up

Applications for the Miss Los Angeles County contest are available at Lomita Park and all county pools.

Winner of the contest will represent Los Angeles County at the State Fair in Sacramento in August and compete in the "Maid of Cotton" contest.

Deadline for entering is June 20.

### Episcopalians Fete Pastor

(Continued from Page One)

During the war he served as chaplain with the Calgary Highlanders, taking part in Normandy invasion. Wounded later, he returned home and after the war spent ten years at St. Paul's Church in Fort Garry, Manitoba.

In 1955 he was asked to visit St. Andrew's in Torrance. While reluctant to leave St. Paul's, he felt that the work here presented a great challenge.

Father Percy has been at St. Andrew's a little more than four years. New organizations have flourished, and established ones have been revitalized. The church itself has been enlarged, and the attendance greatly increased.

Father Percy is a priest-associate of The Order of the Holy Cross, and in 1958 was elected president of the Torrance Ministerial Association.

The climax of the program came as a complete surprise to Father Percy, as the narrator casually mentioned, the secret plan of the parish to send Father and Mrs. Percy on a trip to the Holy Land sometime in 1961.

At first, not quite believing he had heard correctly, Father Percy appeared stunned. Later he said that the This-Is-Your-Life program had been such a great honor that he was overwhelmed to hear of the proposed trip as well.

He said, "This is a most sacred and spiritual gift. The most meaningful part is that it will enable me to try to give back, through my experiences in the Holy Land, just a small part of the absolutely

fabulous gift the people of St. Andrew's have made."

### Lomita Park Improvements Boost Activity

Recent improvements in the facilities at Lomita County Park have sparked an increase in organized recreation activities there, according to Supervisor Burton C. Chace.

An expanded program of organized community activities at the park has been planned for June by recreation personnel of the county Department of Parks and Recreation.

The increase in recreation events was made possible by the Board of Supervisors' authorizing the improvements, which include the addition of concrete walks, installation of new roofing for a portion of the park's community building and the installation of new posts, reflectors, and re-stringing of lights on the park's tennis courts.

Chace listed the activities which are slated to take place at the park during June, and noted that the park's plans include a full-scale program for the summer.

Additional recreation activities scheduled to take place at Lomita Park during June are:

June 14: Senior Citizens Strawberry Ice Cream Social, 12 noon. Bridge Tournament, 1 p.m.  
June 16: School Graduation Party, Dance, 1 p.m.

### Columbia, Kaiser in Accord

The Columbia-Geneva division of United States Steel and Kaiser Steel today announced settlement of a dispute concerning iron-ore mining claims located near Eagle Mountain in the Southern California desert. United States Steel and Kaiser Steel, a wholly-owned subsidiary of Kaiser Steel, have agreed to joint ownership of claims.

**HOUSEPOWER** is to houses  
what horsepower is to cars

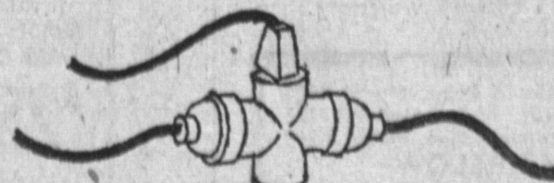

Your home, like your car, needs the right amount of power to make it perform efficiently. This is called **HOUSEPOWER**. It's the ability of your electric wiring to operate all of your electric appliances at peak efficiency at all times.

With **HOUSEPOWER** you can enjoy the full measure of performance that your electric appliances were designed to deliver.

#### The advantages of **HOUSEPOWER**

You'll easily see the difference in a home that has **HOUSEPOWER**. It probably has more labor-saving electric appliances. And these appliances work better and last longer. If necessary, they can all be turned on at the same time without the problem of blown fuses, tripped circuit breakers, or overloaded wiring. Every room has plenty of convenient outlets—no "octopus" plugs.

But there's one difference you might not see. A home with **HOUSEPOWER** has the capacity to add new appliances in the future. And so it has greater value.

#### A simple **HOUSEPOWER** check

How about your home? Chances are that it doesn't have enough **HOUSEPOWER**. Today, four out of five houses (even new ones) do not. Here are some common symptoms of low **HOUSEPOWER**: dim or shrinking TV; toaster or iron slow to heat up; "octopus" 2 and 3-way plugs; blown fuses or tripped circuit breakers.

Call your qualified **HOUSEPOWER** electrical contractor

If you suspect that some of your appliances aren't working efficiently, call your qualified **HOUSEPOWER** electrical contractor. He's a specialist trained in electrical modernization. Remember: **HOUSEPOWER** increases the comforts of day-to-day modern living. It also increases the value of your home.

#### Note to New Home Buyers

**HOUSEPOWER** is one of the many features included in Medallion homes, so look for the Medallion emblem before you buy. It's your assurance that the house is designed for the comforts of the all-electric future. Only one new home in five qualifies for this award.
