Broken Glasses Now Replaced in Four to Twenty-Four Hours

Thanks to ultra-modern lens grinding equipment now in operation in Torrance, glasses wearers are spared discomfort and loss of work-hours when lens breakage occurs. Dr. J. M. Soss, optometrist at 1268 Sartori Avenue for 32 years, gives top priority to fast replacement of lenses, and his own optical laboratories adjacent to his offices are a prime factor in turning out lens replacements in a minimum of time. The time required is dependent on the complexity of the prescription, but any lens can be duplicated in a day. Glasses wearers are cautioned to bring in all the pieces of lenses if possible. You are invited to consult Dr. Soss on all your optical needs—contact lenses, blended lenses (no dividing line bifocals), continuous vision glasses (for 3-range vision), sunglasses, TV glasses, etc. Easy budget terms. Dr. Soss, 1268 Sartori Avenue offices are open Friday evenings and all day Saturdays. Phone FA 8-8602. Offices in Wilmington and Long Beach.

Observatory Offers 'Journey to Moon'

Air-conditioned Griffith Park Observatory is one of Los Angeles' top cultural attractions, and thousands of Southlanders and tourists are enjoying free tours of its Hall of Science, viewing presentations of "A Trip to Mars" in its 500-seat planetarium theater, and looking at the heavens through the facility's twin refracting telescope, it was reported yesterday by the City Recreation and Park Department.

The Hall of Science is open daily from 2 to 10 p.m. and the twin refracting telescope is available for sky-viewing from dusk until 10 p.m. on clear evenings, according to Dr. Clarence H. Clemenshaw, the Observatory's director, who said that "A Trip to Mars" will be offered through Sept. 5 at 3, 8 and 9:15 p.m. daily, with extra matinees slated on Saturdays, Sundays, and Labor Day.
