play area will be divided; one for babies and one for sub-teens. Play equipment will also be installed.

County Court Building, to be built by outside interests, is planned to cover approximately 15,000 to 20,000 square feet. It will be located in the northeast corner of the civic center site.

A Band Shell and Outdoor Theatre is planned for multipurpose use. A little theatre group can use it for an outdoor play, or student activi-

**Hold Community Dinner**

Veterans of World War I of Torrance Barracks No. 1920 will serve a dinner Sunday, Aug. 14th from 11 a.m. to 3 p.m. in the V.F.W. Hall, Lomita.

"Everyone is invited to attend. A complete Swiss steak dinner is promised for a donation of \$1.50," spokesman for the group said.

There are door prizes, donated by local merchants, to be awarded to lucky guests.

ties. The band shell is planned to contain 1500 to 2000 square feet.

Financing of the far-reaching Torrance Civic Center Plan may be in the form of a bond issue, placed before the voters for approval and requiring a two-thirds majority vote. This may mean an increase in the tax rate, unless redemption is earmarked against some particular revenue.

Financing may also result from a lease-back plan, whereby private enterprise provides the financing and building to the City's specifications on city land, and after a long-term rental period, the property ownership will revert to the city.

Another current funding possibility is a "pay as you go" method, whereby funds are drawn from general revenue sources. This would necessitate a "piecemeal" basis over many years as current funds are limited in far as capital expenditure is concerned.

"Of course, the City of Torrance would certainly welcome an 'angel' who wants to contribute an auditorium or a teen-age center," Mayor Albert Isen declared, in lauding the city council and the committee for its far-sighted planning.

**WHAT'S DOING**

R. S. Pyle, your Telephone Manager in Torrance

There's exciting news this month. We're introducing a handsome new telephone called "The Princess." Hardly bigger than your hand, the Princess takes only about half the usual space. When you lift the receiver, the dial lights up. Or at the flick of a switch, the dial glows as a soft night light so you can find the phone easily in the dark. The Princess comes in attractive colors that are perfect for any room in your home—white, beige, pink, blue and turquoise. This new extension phone costs just pennies a day after a one-time charge. You can see and try it out at our business office, and you can order it there or through your telephone service man.

**Princess Marcia Charms PTA Executives**

If you haven't met a tall, well-poised, dulcet-toned brunette and succumbed to her charming manner, you just haven't toured the harbor area lately.

We, of course, are referring to Marcia Hilton, "Miss Princess Telephone," who has temporarily traded her duties as a customer representative at our San Pedro office to introduce the decorative instrument before more than a score of area service clubs.

Marcia, who says she received her "biggest thrill" in winning the "Miss Princess" title in tense competition with 35 other Pacific Telephone employee aspirants, has lived in San Pedro for the past 18 years, graduated from high school there, and studied for a year at Harbor College.

Miraculously enough, she's unmarried and not even engaged. Although Marcia has had no previous training in forensics, she'll indignantly have you know that she doesn't use a prepared speech.

"The Princess telephone is so beautiful and so chic, the words just come out," Marcia says—and you know she means it. Even if she didn't light up like the revolutionary Princess dial.
