R. S. Pyle, your Telephone Manager in Torrance

Coast-to-coast phone calls by satellite. Scientists of Bell Telephone Laboratories tell us that someday long distance calls may very well reach your home via man-made satellites.

Working under National Aeronautics and Space Administration's sponsorship, they carried on a two-way phone conversation between the Bell Telephone Labs in New Jersey and a NASA base in California via a "Project Echo" satellite. The signals carrying their voices were bounced off a 100-foot aluminized plastic sphere orbiting 1000 miles above the earth.

The Bell Telephone System has outlined to the government a plan to use about 50 satellites to provide communications between the United States and other parts of the world. Besides relaying phone calls, these satellites could also bring you live television from anywhere on earth.

Election day, November 8. is still a few days off. But it's not too early to make plans so you'll be sure to get to the polls. If you need transportation, now's the time to arrange with your friends for a ride. If small children keep you close to home, perhaps you can swap baby-sitting chores with a neighbor.

You can make these arrangements by phone . . . but that's not why I mention them. I just want to remind you that every vote is important. Be sure you

cast yours November 8.

"A MANNER OF SPEAKING"

. . . that's the title of a sparkling, new telephone movie in solor available without charge to business organizations, clubs and schools.

This entertaining film, starring that master of comedy Fred Clark, shows how many important business deals can be lost just by improper handling of telephone calls. Certainly all of us can tarn a lot from this film and enjoy many laughs in the bargain.

A call to our Film Desk, MAdison 1-1811, is all that's needed o arrange for a showing to your group, or call your Business
