WHY SMART WOMEN COOK WITH MODERN GAS:

CCURATE top burner temperature control lets you cook your best, automatically. Just dial the degree of temperature you want. The amazing "burner with a brain" takes the pan's temperature, then raises or lowers the clean, blue flame to maintain the exact heat. Coffee won't boil over. Eggs won't stick. Foods won't scorch or burn. Today's automatic gas ranges have so many wonderful features-

yet cost less to buy, install, and operate-you'd think everyone would cook with modern gas. That's why the majority of Southern California women do!

The gleaming gas range illustrated is the new Wedgewood-Holly, built to Gold Star Award standards
