Fund Drive Begins at Keystone Church

Members of the Keystone Baptist Church, 435 W. 220 St., Torrance, have named Chief Warrant Officer Horace Harrelson of the U.S. Navy to serve as general chairman of a special campaign to sell \$65,000 in church notes to refinance some construction indebtedness, provide new equipment, and complete certain facilities now under construction.

Casimir PTA have chosen an Hawaiian theme for the annual carnival held at the school on Friday, Oct. 21 from 6 to 10 p.m.

A teenage dance contest and talent show will be held. The 7 and 8 grade students will have a booth with the proceeds being to be donated to their dance fund.

A country store will feature a wide selection of hand work, canned goods, remnants and toys.

According to Rev. Dave A. Likins, pastor of the church for the past five years, a permit to issue and sell notes has been issued by the Division of Corporations of the State of California. The method is fundamentally a simple variation of municipal finance in which the church sells six percent interest bearing notes to its members and friends.

The organization for selling the notes calls for nine sales teams to be headed by the following managers: Buford Bales, Gerald Caughern, Alfred Chandler, Winton Dunn, Robert Fowler, Mark Freeman, Dayne Howard, Ford Mink and Glenn

A special campaign kickoff banquet was held at the church last Wednesday evening. J. L. Stenstrom of Fresno will direct the sales campaign.

**AR-EX HYPO-ALLERGENIC**

This word—which you may never have heard of nor seen—can be the KEY to your whole problem of SAFE beauty care for sensitive skin

It's a long word, with a formidable scientific sound (Hypo-all-er-jen-ic). But you will soon hear it pronounced by women you know. You will hear it mentioned with a sense of excitement—a feeling of deliverance from a beauty problem. . . a tragic problem for many women. For millions of women—at least one in six—suffer allergy reactions to conventional cosmetics. Hypo-allergenic Cosmetics are those cosmetics which are formulated for the express purpose of reducing allergic reactions and irritations to a minimum by using ingredients which have a low index of sensitivity. Under the brand name, AR-EX, these cosmetics are available in scented and unscented form in our cosmetic department.

**SYMPTOMS OF COSMETIC ALLERGY**

Nasal Irritation with hay fever symptoms may be caused by conventional cosmetics or their perfume ingredients.

Body Rashes may be traceable to allergy-causing substances in lotions, creams, soaps, body powder, nail polish or deodorant.

Infamed Eyelids can result when eyelids are touched with fingertips on which conventional nail polish or remover has been used.

Chopped Hands may be caused by the use of conventional soaps, lotions or detergents.

Cracked Swollen Lips can be caused by a lipstick, especially one containing indelible dye.

Other members of the family, (even pets!) may suffer from allergy to a woman's cosmetics. A change to AR-EX Hypo-Allergenic Cosmetics will help them.
