

PERENNIAL FAVORITES

If you would give perennials a really good start in life, plant them now and let them winter over in beds where they are to grow. Come spring, they will be well

established and ready to push with a vigor that outstrips any of their kind not planted until after the rains.

If you like other gardeners in your likes, the perennial you will be most attracted

to is the gorgeous Delphinium. Seedlings set out this fall will produce two crops of bloom next year on spikes that seem ever to be growing taller and more profuse with color.

Torrance Population to Grow Nov. 1—Dogs Coming

Come Tuesday, and stray dogs bounding around in the strip area will have a new home. They will be moving into Torrance.

Pending the completion of the new County-owned and operated animal shelter in the Dominguez area, arrangements have been made with a Torrance pet hospital and boarding kennel at 20445 Hawthorne Blvd to hold stray dogs that have been impounded in violation of the leash-ing ordinance.

All stray dogs picked up from within Lawndale, Rolling Hills and Holling Hills Estates, as well as the unincorporated County territory west of Main Street, will be impounded at the Torrance kennel, county pound officials declared.

Dogs will be held at this location for at least five days during which time they may be redeemed by their owners.

Dog owners redeeming their pets will be required to pay the impounding and board charges as established by ordinance, as well as the required license fee on unlicensed dogs. A rabies vaccination certificate is also required.

Calls for service, relative to animal regulation problems, should continue to be directed to the Pound Department headquarters, 11258 So. Garfield Ave., Downey, SP 3-4430 or TO 9-1173.

Any person missing a dog from the above area should contact the Pet Hospital and Boarding Kennel, 20445 Hawthorne Blvd. FR 1-4675.

Garret Corp., Moving to City, Declares Dividend

The Board of Directors of The Garrett Corporation, soon to be in full operation in Torrance, today declared a stock dividend of three per cent.

The dividend is payable on Dec. 9, to stockholders of record Nov. 4. Stockholders will receive one share for each 33 1/3 shares held.

At the same time, in a consolidated statement for the first quarter ended Sept. 30, 1960, the company reported sales of \$47,682,849, with a net profit of \$329,249 or 28c per share on 1,164,971 shares outstanding. Profit before taxes was \$712,259.

J. C. Garrett, president pointed out that "first quarter earnings reflected very heavy starting load costs on certain new projects, and also the expense of setting up and moving into the new plant in Torrance.

Management does not believe these loads will continue" he said, "and management feels confident that this current year will be as good or better than last, when sales and profits were highest in the history of the company."

The company's backlog is approximately \$98,000,000, up from about \$92,000,000 last June.

Daffodils Should Be Numerous

It's not enough to plant a mere handful of daffodils in the garden. Even the smallest garden can hold them by the dozen and the infinite variety of the different members of the family eliminates any chance of getting an overdose of one thing. Not that you really could. And Daffodils are a good investment, too, since they naturalize readily.

Plans to Widen Sepulveda Blvd. Win Approval

Plans and specifications for the widening and improvement of Sepulveda Boulevard between Figueroa and Main Streets in Carson were approved today by Supervisor Burton W. Chace.

"East-west traffic on this portion of Sepulveda becomes extremely congested during peak hours," said Chace.

Bids for this contract, designed by the County Road Department, will be opened by the Supervisors on Nov. 22nd.

The improvement, approximately one-half mile in length will consist of reconstruction to alleviate critical structural deficiencies, and widening to four lanes to accommodate present and future traffic demands.

This segment of Sepulveda, a major county highway, presently carries 14,000 vehicles daily.

Completion of this project will not only be an important step toward the ultimate development of this major east-west road, but is also intended to furnish improved access to the proposed Harbor Freeway. The portion of Sepulveda between Vermont Avenue and Figueroa Street will be improved by the State Division of Highways in conjunction with the Freeway construction.

Plans for the improvement of Sepulveda from Normandie Avenue to Vermont Avenue are nearly completed.

Touch Football Games Slated

Eighteen touch football leagues at Torrance's Mc Master Park are beginning their second round of the current season with tight races in all three age brackets.

Current standings include: Ivy League: Mustangs, 3-0; Chargers, 2 1/2-1/2; Chiefs, 2-1; Bulldogs, 1 1/2-1/2; Rams, 0-3.

Skyline League: Falcons, 2 1/2-1/2; Bulldogs, 2-1; Rebels, 2-1; Mustangs 1-2; Wildcats, 1-2; Bobcats, 1/2-1/2.

Rockey Mountain League: Rebels, Colts and Ramblers, 2-1 each; Scrags and Spartans, 1-2; Comets, 0-3.

Research Firm

(Continued from page one) fundamental scientific discoveries.

These areas include solid-state physics under Dr. Fred W. Schmidlin, quantum electronics under Dr. Donald J. Farmer and magnetohydrodynamics and space simulation under Drs. Lee O. Reflinger and Edward L. Garwin.

DR. MILTON CLAUSER Heads Research Firm

"Atomic power was the first dramatic product of engineering science. Solid-state physics produced a revolution in electronics with the transistor. It is our intention to become a vehicle through which these potential applications of fundamental knowledge and discovery can be applied to the national space and electronics programs," Dr. Clauser said.

After 13 years with Douglas Aircraft Company, Dr. Clauser became head of the School of Aeronautics at Purdue University. In 1954 he joined the Ramo-Woolridge organization as director of the aeronautical staff. He participated in organizing the systems engineering for Atlas, Titan and Thor missiles. In 1958 he became vice-president and director of research of the Ramo-Woolridge subsidiary, Space Technology Laboratories. During the past decade he has served on a number of advisory committees for National Aeronautics and Space Administration, the Air Force, Navy and Department of Defense.

Torrance Police Officers Assigned To New Institute

Four Torrance Police officers are back in school, Chief Percy Bennett announced today.

Detectives Myles Hamilton, Jim Davis, Robert Hammond and Don Cooke will be spending one day a week in a burglary investigation institute, conducted throughout Nov. at Los Angeles State College.

Sponsored by the School's Department of Police Science and Administration in cooperation with state, county and local law enforcement agencies, the institute will cover many subjects, Chief Bennett said.

Law, evidence, police procedures, a history of burglary, as well as specific burglaries and police records will be studied.

Water Plan

(Continued from page one) "Only the people who use the water will pay for it. The taxpayer who receives no benefits will not be called upon to spend a dime," Brown declared.

Declaring the plan had the endorsements of city councils throughout the state, as well as chambers of commerce, labor unions and many civic groups, the Governor stated "the state does have enough water; the trouble is that it's in the wrong places."

Proposition 1 represents the end product "of more than a decade of work by men of political parties," he declared. "It was conceived in the Republican Administration of Earl Warren, carried forward by Goodwin Knight, and met agreement in present Democratic administration."

"This is not the Brown Water Plan," he stated, "it is the California Water Plan."

Community Chest Gets 70 Industry Leaders for Drive

"It is a great source of satisfaction to see the Chest receive the support of these industry leaders," said Mr. Spike Hunter, Community Chest Loan Executive, said as he accepted gifts from two Harbor area firms this week.

Hunter, California Bank Assistant Vice President, is one of more than 70 executive loaned to the Community Chest by firms for full time work on the 1960 campaign.

Setting the pace for the Chest's Commerce and Industry Division campaign, early contributions were given to the Community Chest by Victor C. Johnson, President of Mayflower Trailer Co. 2700 W. 247th St., and Allen Klatzker, Assistant Vice President of Pacific Smelting Co. 22219 So. Western Ave.

Harbor College Names Officers of Honor Group

New officers for the Harbor College chapter of Alpha Gamma Sigma, California honorary scholarship society, were announced today by Dr. Isabel Beck, faculty sponsor.

William Caswell, English major, of 717 W. 36th St., San Pedro, was elected president; Leonard Mandig, business administration, 2660 Westvalo Road, Rolling Hills, vice-president; and Jane Wood, business education, 27149 Shorewood Road, Rolling Hills, secretary-treasurer.

Harbor College members this semester include Irene Ayala, Mike Benjamin, Thomas Bettis, Blanche Burton, William Caswell, Marcel Derouin, Terry Fitzpatrick, Harold Hastings, Oystein F. Husoe, Mike Kelly, Leonard Mandig, John R. McLaughlin, Carlene Mooneyham, Modesto Mota, Roger Peabody, Joe Simpson, Gerald Smith, Charles Stotts, Andreas Tautel, James Tagami, Virginia Whitcomb, B. E. Wilson, and Jane Wood.
