

Nat'l Association of Accountants Holds Session

A large and enthusiastic audience attended the afternoon and evening sessions of the National Association of Accountants' Forum held in the Luau Room of the Hawaiian Restaurant recently. "It is most gratifying to have such a wide acceptance and favorable reception for our Forum. The success of this Forum is a tribute to the Committee Chairman and his associates," said Carl Schy, president of the Long Beach chapter.

Schy further said, "It is through such mediums as this forum that accountants are given the opportunity for the free exchange of accounting policies and philosophies."

The subject of "Fixed Assets" and the various aspects Valuation, Depreciation and Taxation, was brilliantly presented by our speakers.

The topics and date for the Spring Forum will be announced later.

The National Association of Accountants is the world's largest and most active association whose services are designed especially for persons in the accounting field.
