Hyde Park Habitues Feel US May Be 'Letting Down'

By Ross Sciarrotta
Press Correspondent
A DAY AT HYDE PARK

On July 9, I spent several hours talking to people of many countries at Hyde Park in London. My aim was to get a slant on how the average individual reacts toward the United States.

I was in for a great surprise. Four out of five Englishmen I talked to still feel that the United States is not giving the leadership the free world demands. A great number feel that this administration has promised a lot but is doing little. The Britons feel that we are today the same people we were in 1914 and in 1938. They point out that we did not go into World War I until 1917 and that it took a Pearl Harbor for us to go into World War II.

DECADENT

A great number of those who were gathered at Hyde Park denounce the U.S. and say that we are decadent. Of course this would be those who lean toward the left.

I talked to a German professor who says that Mr. K today is very powerful and can afford to threaten the West. He said he hoped the U.S. would not let the German people down. It is his ob-

servation that the East German people — not the leaders — do not want a separate peace with Russia. The East German people want to see the re-unification of Germany. He mentioned that today as many as 4,000 East Germans a week are still escaping into West Germany.

MEANS BUSINESS

This professor, who teaches at Heidelberg, believes that Mr. K means business this time and that the average German who is able to realize the situation trembles. He claims that if Mr. K will not have his way, he will conclude a separate peace treaty with East Germany and see to it that all passages to Berlin will be closed. The puppet government of East Germany will ask the names of all passengers and the nature of the cargo of all planes that expect to fly over East German territory on the way to West Berlin.

A representative of the Daily Express told me that Russia now has planes that can travel at several times the speed of sound. They also have supersonic fighter planes which appear to put the western powers two years behind in aircraft achievements. Their MIG-type fighter planes have an extra engine powered by liquid oxygen. The pilot can switch this on and off at will. Some of their planes can climb at the speed of 800 miles an hour and can travel at the rate of 1,000 miles per hour.

'Faith' Summer Camp

Junior High School students from Calvary Community Church will attend summer camp from July 23 to July 29. Camp "Faith," located in Pine Valley, is sponsored by the American Sunday School Union. For information regarding reservations Mrs. Flentge at DA 4-5271 or Mr. Bowman at FA 8-8030 can be contacted.

Photo Day Slated In Gardena Today

Southland photographers will get an opportunity to satisfy the picture shooting itch today when the Gardena Recreation and Parks department holds its first annual Gardena Photo Day.

The photo fest, set from 1 to 4 p. m., is scheduled for Gardena's Recreation Park, 158th Street and Normandie Avenue.

A photo contest will follow the photo day in about one month.

Harry Shigeta, world renowned commercial and salon photographer will head the judges of the photo contests.

A number of pretty girl models have been lined up for this Sunday's shooting.

Eight sets will be constructed of photo background paper, and it is possible boats and old and new automobiles will be supplied for amateur photographers from all over Los Angeles County.

Photo day committee is composed of Al Nash, Gardena Recreation and Parks department; Joe Waterman and Gerald Bethel, arrangements; and Dick Baylor and Ron Rresnick, publicity.
