Man Donates Diamonds To Museum

The Los Angeles County Museum acquired an important collection of rare colored diamonds as a gift from William E. Phillips, prominent Southland merchant and gem collector, August 10. The gems were presented by Phillips to Dr. Herbert Friedman, Director of the Los Angeles County Museum, and to Randall T. Chew III, Curator of Mineralogy, to add to the collection of outstanding faceted stones donated by him to the Museum over the past seven and a half years.

The selection given by Phillips yesterday comprises 12 colored diamonds. According to Curator Chew, there is no similar collection in any Southwest museum. The most valuable stone in the group is an .84-carat cashmere blue, considered the rarest of all colors. Largest stone is a 1.33-carat pink diamond. Other colors include chartreuse, green, canary, orchid, coffee and black.

Dr. Friedman said he was delighted with the gift and that the diamonds would be placed on display very soon in the Museum's Hall of Minerals, where the Phillips collection comprises the greater part of the gems on view.

The retired founder of the 40-year-old Southern California chain of retail stores which bears his name, Phillips made his first contribution of gems from his personal collection in November 1953. Earlier gifts include a cornflower blue sapphire weighing 38.83 carats, an amethyst two inches square, a newly discovered gem—sinalite—of 158 carats, and unusual aquamarines, topazes, moonstones, tourmalines and others.

Phillips, 71, was in the jewelry business for more than 40 years, and has been a collector for the past 25. In addition to gems, he has one of the West's finest collections of jade carvings and other objects of art. This has been willed to the County.

The retired executive makes frequent trips to the Orient in search of rare stones and gems for sale through his company. On his last journey he visited Katmandu (Nepal), Bangkok, Jaipur, Singapore, Tokyo and way points. During his career he has visited nearly every country on the globe in which precious stones are mined.

Guidance Clinic Elects Officers

Mrs. Charles Luckman, was re-elected president of The Child Guidance of Los Angeles at the 16th Annual Meeting of the membership. This is the second term for Mrs. Luckman, who has been a member of the Board of Directors for more than nine years. Other officers re-elected were: J. Edison Goldsmith, M.D., vice president; Mrs. Donald Buckingham, secretary; and Robert B. W. Carss, treasurer.

"Analysis of The Clinic's statistics indicates it is taking longer to treat each child, due to the fact that the more seriously ill are attracted to longer established clinics such as ours," stated Leonard I. Lesser, M.D., The Clinic Director.

In 1961-62, the 14 staff members of The Clinic worked on nearly 100 cases per month, but the waiting list remains long. The clinic, a Community Chest agency, provides the means for study and treatment of behavior and personality problems in children from 18 months to 18 years of age.

New Directors elected to three year terms are: H. Blake Chatfield, Mrs. Cullen Ward, Irish, Mrs. Walter J. Monia, Marvin Freeman, Mrs. Peter P. Shelby, and Howard E. Wilkening, Ph.D.

Members re-elected for additional three year terms are: Harry F. Deltrich, M.D., Mrs. Bruce C. Elliott, Mrs. Clara Burt Hixon, and Mrs. Neal Ireland.

Other members of the Board of Directors include: Mrs. George B. Allison, Mrs. Henry T. Bonsteel, Mrs. Theodore A. Fouch, S. Niles, Guy P. Greenwald, Jr., David Hearst, Harold M. Hecht, Cornwall Jackson, Mrs. Wesley G. LaFever, William S. Lochheim, William B. McKesson, Richard J. Neutra, Walter W. Ralphs, Jr., and A. B. Ripley.

Tax Load Shows Jump Per Capita

A whopping \$101 increase during the last two years in per capita tax collections from the residents of Los Angeles County was disclosed today in a study released by California Taxpayers' Association. For each man, woman and child a record-breaking \$863 was collected during the year ending June 30, 1961. In the year ending in 1959 collections totaled an estimated \$762 per capita.

State-wide the increase in tax collections on a per capita basis was \$98 for the two-year period. For each Californian the 1960-61 bill averaged \$852, up 13 per cent, from the \$754 for 1958-59.

The total tax burden state-wide reached an estimated \$13,674,300,000 in 1960-61 — up \$2,506,000,000, or 22 per cent, in the two years since 1958-59. Federal tax collections for the past year amounted to \$8,436,700,000 — up \$1,513,100,000, or 22 per cent, over two years ago. State revenues from all Californians totaled \$2,752,400,000 for 1960-61 — an increase of \$575,400,000, or 26 per cent, for the two-year period. Local property tax levies for the entire State in the year just ended amounted to \$2,259,200, ended a mounted to \$2,259,200,000, up \$391,300,000, or 21 per cent, from 1958-59. City sales taxes collected statewide this last year totaled \$191,200,000 — up \$24,500,000, or 15 per cent, from the 1958-59 collections, and county sales taxes collected statewide were \$34,800,000 — up \$1,700,000, or 5 per cent.

State-wide the per capita figures for Federal taxes rose from \$468 in 1958-59 to \$526 in 1960-61, a 12 per cent increase, and from \$147 to \$171 for State taxes, a 17 per cent increase. For local property taxes state-wide the per capita figure rose from \$126 in 1958-59 to \$141 in 1960-61, an increase of 12 per cent.

"This skyrocketing tax bur-
vigilance in dealing with ex-
dence calls for greater voter
cessive welfare state propos-
als, commented S. J. Arnold,
General Manager of the As-
sociation. "We must husband
our resources for national sur-
vival and essential public
services."

Political Party To Slate 10-Day Drive for Funds

The Dollars for Democrats drive will be held September 22 through October 2 in Southern California, it was announced today by Attorney General Stanley Mosk, Democratic national committeeman.

During the 10-day drive, grass-roots volunteers will ring doorbells of all registered Democrats in Southern California to ask for small contributions to the Democratic Party.

Gabriel Lizer of Los Angeles County and Mrs. Joyce Turney of San Bernardino County are co-chairmen of the Southern California drive. Governor Edmund G. "Pat" Brown is state-wide chairman.

"The drive, first held in 1956, points to the overwhelming willingness of most persons to make a small contribution to the political party of their choice," Mosk said.

"This year we have noticed more political activity for an off-election year than in previous drives at every level of Democratic activity and we are therefore setting a drive goal of \$100,000 in the eight Southern California counties."

Miller Appointed

Space Technology Laboratories, Inc., a subsidiary of Thompson Ramo Wooldridge Inc., has announced the appointment of Dr. Kenneth L. Miller as head of the applied mathematics section, mathematical analysis department, computation and data reduction center.

Miller and his wife reside at 4706 Scott St., Torrance.

Miller's experience includes 12 years in applied mathematics, ordinary and partial differential equations, control system analysis, applied elasticity and plasticity and non-linear mechanics.

He received his B. A. in 1948 and M.A. in 1949 at the University of Wyoming and his Ph.D. in 1958 at Brown University. He is the author of five technical papers.

Miller is a member of the American Mathematical Society, American Association for the Advancement of Science, Society for Industrial and Applied Mathematics, Phi Delta Kappa, Sigma Xi, Phi Beta Kappa and Phi Kappa Phi.
