NO she didn't forget her GLASSES

Now—so comfortable, so undetectable—contact lenses are for just about anybody: the self-conscious teen-ager, hating to admit she needs glasses... the society miss who feels that conventional glasses subtract from her youthful charm... the man or woman afflicted with forgetfulness who too often leaves their regular glasses at home. Whatever your reason for being interested, come in and see what Science has done about contact lenses to make them wonderful to wear.
