

## Firm Announces Dial-A-Number Weather Service

Dial-a-number weather information service on a 24-hour basis was introduced by Pacific Telephone last week to telephone users in the area.

The new service started Friday. According to James S. Cantlen, vice president and general manager of Pacific, it had been more than a year in planning to make it ready for the holiday season.

Anyone in the Los Angeles area may now get current weather information and forecasts by dialing 554-1212, Cantlen said.

Pacific introduced the service with the cooperation of George W. Kalstrom, meteorologist in charge of the U. S. Department of Commerce weather bureau at International Airport, who is supplying the forecasts and weather data.

Announcements have become a permanent part of Pacific's service. They are made at 30-second intervals day and night, covering Los Angeles and vicinity from

the beach cities inland through the San Fernando and San Gabriel Valleys.
