

130 YEARS OF SERVICE—Thirteen employees of the Torrance plant of the Rome Cable Division of ALCOA were recently awarded 10-year service pins. Award receivers are (left to right, back) Helen Forney, Richard Gates, Robert

Kelley, Warren Mudd, Raymond Hundley, Willard Coley, (left to right, front) Matthew Panek, Jack Radcliffe, Vernon Weldin, Morgan Kelley, and Joseph Ventimiglio. Not pictured are Spiro Pandora and Hampton Carroll.

Professionals, Execs Are Grandview's Top Buyers

More than half of home sales at the Estates, newest Grandview Palos Verdes development, are to executives, engineers and others employed in the South Bay electronics-missile - aircraft complex, reports William C. Kulow, director of sales.

"This," he said, "bears out our concept of the peninsula as a choice 'bedroom area' for South Bay industry." He also pointed out that scheduled completion this summer of the Harbor Freeway will reduce travel time to downtown Los Angeles to less than half hour.

Three plans, in a choice of 12 exterior styles, are offered in the Estates. Prices start at \$25,550 with monthly payments starting at \$146 for dwellings which contain 1432 to 1816 square feet of interior living space.

Located in the peninsula's northwest sector, the unit borders the city of Palos Verdes Estates and affords many ocean views. It is several minutes from two elementary schools, the Peninsula Center and the forthcoming Los Verdes golf course. Until the new Rolling Hills high school on nearby Silver Spur Road is ready, students are taken by bus to Palos Verdes High School, about 10 minutes away.

TWO BATHS
Standard in all plans and models are two luxurious baths, attached double garage, utility room connecting to kitchen and garage, fireplace with log lighter, landscaping of front and sides, wall-to-wall carpeting in living room, dining room, entry, master bedroom and hallways and built-in gas ranges and ovens. Most kitchens also include a dishwasher.

Natural finish ash cabinets and ceramic tile counters are other kitchen features. The Crescendo, a four-bedroom home, includes a convenient dining bar between kitchen and family room.

Grandview is also offering some homes for immediate occupancy in the Country Club unit and at West Palos Verdes Estates, featuring 2127 square feet of interior

KOREANS FIRST
Almost a half century before the first Bibles were printed from Johannes Gutenberg's movable metal type, the Koreans cast faces on individual, movable, interchangeable metal blocks. The books printed preserved for posterity the laws and classics of their nation.

New Speed Limit Set on Vermont in Carson Area

Motorist traveling on Vermont Ave. between 208th St. and 228th St., Carson, will be required to observe a new speed limit of 40 miles per hour in the near future, according to Supervisor Burton W. Chace.

The new speed limit was adopted by the County Board of Supervisors at its meeting today. The Los Angeles County Road Department has been instructed to post signs along this segment of Vermont Ave. immediately.

"This speed limit was recommended by the California Highway Patrol because of increased subdivision development along this portion of Vermont Ave.," Supervisor Chace explained, pointing out that the only previous speed limit along this segment was the state 65-mile-hour speed limit.

He also noted that recent traffic and engineering studies by the Road Department have indicated this section of Vermont Ave. qualifies for the posting of speed limits in accordance with the California Vehicle Code.

Road Department traffic counts show that nearly 9,000 vehicles travel daily over this segment of Vermont Ave., a County Master Plan Highway.

North HS Hosts Area Students at Tonight's Meeting

North High School will host South High and Torrance High at a district meeting for all juniors, seniors, and their parents at College Advisement Night tonight, according to Mrs. Jean Melton, North High senior class advisor.

"What Shall My Future Be?" is the main topic for the program that will start at 7:30 p.m. in the gymnasium.

After the general meeting in the gym, representatives from twenty colleges and specialized training schools, (including the Armed Forces), will tell of the advantages their schools have to offer, at three individual meetings that start at 8 p.m.

Students will register in advance and a pool will be taken to indicate the areas that they wish to know more about.

The colleges and training schools to be represented are: The Art Center, California State Employment, California State Polytechnic College, Chapman College, Chouinard Art Institute, El Camino Junior College, Electronic Technological Institute, George Pepperdine College, Lawton School, Long Beach State College, Loyola University, Los Angeles College of Optometry, National Technical Schools, Northrop Institute of Technology, University of California at Los Angeles, Woodbury College, and representatives of the United States Navy, United States Air Force, United States Army, and the United States Military Academy.

County Planning

Supervisor Burton W. Chace this week praised the County Regional Planning Commission for "progressing with the changing nature" of the Carson area.

In a statement before the Board of Supervisors, Chace noted that the commission is conducting a study of industrially classified properties and at the same time giving consideration "to establishing residential districts where they will fit in to the eventual development of the community."

He also stated that the Los Angeles City School District is considering building a school in the area and asks that this be included in the current study for possible residential area.

Swimming Pools Will Be Closed Through Jan. 29

Swimming pools at El Camino College, normally open for public use during the week, will be closed from Jan. 22 through Jan. 29, John M. Morrow, assistant director of instruction, announced today.

Facilities will not be in operation during the period of final examinations on the college campus, Morrow stated. Swimmers may return to the pools on January 30, when the regular schedule will again be enforced. Pools are open to the public from 6 to 7 p.m. Monday through Fridays with additional hours of 7 to 8 and 8 to 9 p.m. in effect on Friday only.

GUTENBERG

100 years ago the printing press of Gutenberg was reconstructed from three fragments found in a cellar hole in Mainz, Germany.

Torrance Schools Pre-Register for Adult Classes

Pre-registration of adults seeking to earn high school diplomas from Torrance Evening High School is now under way. Students entering for the first time to earn a diploma should call the Adult Education Office to arrange for counseling appointment. Students not working toward a high school diploma may register during the week of Jan. 29 to Feb. 1, and during the first two weeks of the second semester, beginning Monday, Feb. 5, by going directly to the class of their choice and registering with the teacher.

A class in drafting and blueprint reading will open at North High School, beginning Wednesday, Feb. 7. For those who are planning to do some traveling next summer, a class in Esperanto, an international language course, is being offered for the first time at South High School, beginning Monday evening, Feb. 5. Registration for this class will begin that evening at South High School at 7 p.m., in Room R-2. This language course is derived from Latin, German, Greek and Italian, and is in wide use in all countries in the world.

Other courses of interest included in the second semester are business training, English and languages, homemaking, vocational and industrial arts, mathematics and science, social sciences, health and physical fitness; and such special courses as individual and family survival, safety training for school bus drivers, standard and advanced first aid and parent education.

Appointments for counseling, or requests for class schedules, may be obtained by calling at the Torrance Adult Education Office, 2200 W. Carson St., or phoning

FAirfax 8-8080, Ext. 295, from 1 to 4:30 p.m. on week days or FAirfax 8-9206 from 5:30 to 9:30 p.m. Monday through Friday.

INVESTMENT

Most families would rather own a \$20,000 house and a small car than a \$15,000 house and a large car. Why? Hard goods, like automobiles, depreciate rapidly in dollar value. Putting money into a home, on the other hand, is a long-term investment. A home that is properly maintained retains its dollar value and is an excellent hedge against inflation.

PRINTING

As late as 1750 engraving was accepted but printing was carefully excluded from a prospectus printed in Scotland called "The Lower Branches of Polite Arts." Respectability came later to printing.

ELECTROTYPING

Electrotyping was invented by an American. The first electrotypes to be used in a publication was made in 1941 by Joseph A. Adams, a wood engraver in the employ of Harper and Bros.
