## Difficult Steps In Sewing Skills Taught in Class

One of the most difficult steps in the construction of a well-fitted garment is taught in the clothing construction classes offered by Banning Adult School. This is the alteration of the paper pattern to fit the individual figure, before any cutting is done on the material itself.

With instruction in paper pattern alteration, members of the Clothing Construction classes are finding they can cut into the material of their choice with the assurance of no waste of time or material.

In the classes following Easter vacation additional time will be spent on the selection of patterns and materials for summer outfits. New summer suits are already being planned, as well as dresses for summer trips and vacations.

Clothing Construction classes are held at Marine Center, 1468 Marine Ave. in Wilmington on Tuesday mornings from 9 to 12, with Mrs. Bruckshaw as teacher, and at Dominguez Elementary School, 21250 S. Santa Fe, Long Beach on Tuesday mornings from 9:30 to 12:30, with Mrs. Berenice Charroin as teacher.

Information regarding classes in other locations may be obtained by phoning Banning Adult School, TE 4-2343, between 1 and 9:30 p.m. on school days.
