

WRITER READS—Five-year-old Bruce Bailey, 18720 Kornblum Ave., Torrance and Margaret Johnson, 8, sit enchanted as writer Fred Gypson reads to them from his latest book, "Savage Sam." Gypson is in Los Angeles to supervise the filming of his book and talk about it at the County Library's 20th annual Children's Book Breakfast at the Statler Hilton Hotel May 16.

Informal Program of Organ Music Presented at Narbonne High

Ever have the desire to play the organ for fun and relaxation? Here's an opportunity to see how really easy it is! An informal program of popular organ music and playing suggestions will be held at Nathaniel Narbonne High School at 8 p.m. on May 4th according to an announcement made today by Ken Chilton of Hammond Organ Studio of the South Bay, 2768 Sepulveda, Torrance.

CONDUCTS

Porter Heaps, Columbia recording artist and one of America's finest organists and teachers, will conduct the program. It is especially designed for home organists and people who just like organ music.

Heaps will discuss and demonstrate the absolute simplicity with which the organ can be played, plus such things as special effects, registration and other subjects that appeal to those who already play or want to play for fun and relaxation.

FEATURE

As an added feature Heaps will play and demonstrate the revolutionary chord organ—an instrument

that absolutely anyone can play in just minutes.

Heaps has appeared all over the world as a concert artist and lecturer. He was guest soloist with the Detroit and Chicago Symphony Orchestras, as well as organist and choir director of St. Matthew's Episcopal Church in Evanston.

BACKGROUND

His background has been broad and quite varied in all phases of organ work, including church, radio, television, teaching and arranging. More recently he has made several record albums.

Chilton says the doors are open to everyone, but please call DA 6-1131 for free admission tickets. Ticket-holders will be seated first.

SPARKLING FEATURE

The space suit worn by Astronaut John H. Glenn, Jr., during his orbital flight was equipped with tiny fingertip lights. Space suit engineers at The B. F. Goodrich Company added the battery-operated bulbs in glove tips of the index and middle fingers of each hand so Glenn could read instruments and charts.

OPEN HOUSE—Scenes similar to the above will be repeated tenfold throughout the 38 schools of the Torrance Unified School District during Public Schools Week, April 30 through May 4. During the open house and visitations, parents will have an opportunity to see in action "Learning Opportunities Unlimited" in the schools. A number of elementary schools have held open house programs throughout the year; however, many special programs are being planned and classrooms visitations will be welcomed in every school. "We hope, however," stated Supt. J. H. Hull, "that parents will understand they are welcome to visit their children's classes at any time during the school year." This can be done by making arrangements through the building principal.
