## Review Grammar Class Offered At Adult School

High school graduates and other adults planning on qualifying for admission to California colleges, state colleges, or the university, will be interested in a non-credit course available in evening classes conducted by the Banning Adult School during the summer session beginning July 9, 1962.

The class will meet two evenings per week during the six weeks term, but the formation of the class will depend on sufficient numbers of interested persons registering for the course. Persons interested in this opportunity to master the essentials of English grammar and composition are urged to register for the class as soon as possible.

Content and presentation of the class work will be primarily to aid those beginning their college work in September who feel the need to strengthen and improve their use and understanding of English grammar and composition. It is expected that their experiences in the course will be of substantial help when taking "Subject A Examination" in colleges of their choice.

Registrations may be made between the hours of 1 and 9:30 p.m. on school days at 1500 Avalon Blvd., Wilmington. For further information regarding these classes or other classes of the summer session, one may call TE 4-2343 during those same hours.
