Letters

The recent election on June 5, 1962 should serve notice to both Pat Brown and Dick Nixon that the California taxpayer has had enough.

Neither of the gubernatorial aspirants have taken the hint that too much money cannot be spent just by putting it on the ballot.

As a taxpayer, I am part of the 60 percent of homeowners in California who are carrying the loaded tax bills for the other 40 percent who either don't want to own a home or know better not to.

Mr. Brown or Mr. Nixon should find some way, through legislation, to ease the burden of the taxpayer owner and come out for an equal distribution of tax. Why have representation without taxation for some and representation with taxation for others.

Both candidates have turned down the "Gross Income Tax" which provides an overall 1 1/4 percent tax on gross income in the state and eliminates property tax.

Whether Democrat or Republican, these candidates will have to cater to the property owner and not the indigent who can qualify for everything free in the state. Equal rights for property owners should be the slogan in the November ballot.

Please do not subject us to a propaganda barrage about schools. We know how important they are already. Try to win our confidence by showing us how to live within a sensible

budget without bond issues.

Dear Mr. Edmonds:

On behalf of the Harbor Area Community Chest and myself, please accept our sincere thanks for the generous coverage and space allotted to our program and activities by your paper during and after the campaign.

Also, please express our heartfelt thanks to the donors and volunteers in this area for their wonderful help during the 1961 Chest Drive. Without this marvelous community cooperation, the 170 very worthwhile charitable organizations could not be supported.

United Way Community Chest dollars raised in this area worked many wonders, helping indigent people in chest-supported hospitals, child care centers, youth services and family counseling.

Thanks again to all those who took an interest in the health and welfare of our community through the chest drive.

Gratefully yours,  
Fred W. Mill

Dear Editor:

The South Bay Mothers of Twins Club wishes to extend their thanks and appreciation for the splendid news coverage which the Press has given to us this year. Because of the great interest shown by the paper, many more people have become aware of our club and its activities and our mem-

Narbonne Avenue Baptists Start Building Fund

The Narbonne Avenue Baptist Church of Lomita has begun a building fund drive to build a new auditorium within two years. Nearly \$13,000 in cash and pledges was counted on the first day of this campaign. A gift certificate plan was introduced to allow the gifts to be made over the two year period. A goal of \$75,000 has been adopted.

The summer camp for the youth of the church will be June 18 to 22. There will be nearly 30 attending from the Lomita congregation.

Church has entered four teams in the church league for the area. This includes a junior boys team, ages 9 to 11, playing hardball; intermediate boys, 12 to 14, hardball; an open team for men, softball; and an open team for women, softball. The purpose of the league is to provide a wholesome atmosphere for recreational activity. "All games played have thus far led to victory, but the main purpose is not just to win, but to teach good sportsmanship; the church won the coveted 'Good Sportsmanship Trophy' last year," the church athletic committee reported.

Pastor Robert A. Wells, will speak at both the 8:30 and 10:50 services on Sunday. His subject will be, "The Father Image." "In our day the image of Dad may be slipping. There was a day when Dad's word was final, there is grave danger that Dad may have no final word. God made him to be leader of the home; this bears responsibility that can be assumed by no other," Wells will state.

Evening message by the pastor will be, "My Summer For the Saviour." "Too often as school ends many say 'Good-bye God, I'll see you next fall.' Summer time offers an excellent time to do something extra for our God," the pastor will state.

Christian Science Sermon Today Is God the Preserver

How spiritual understanding of God brings freedom from weariness and fatigue will be brought out at all Christian Science services Sunday in the Lesson-Sermon entitled "God the Preserver of Man."

Scriptural readings in the sermon will include these words from Isaiah (40), "Hast thou not known? hast thou not heard, that the everlasting God, the Lord, the Creator of the ends of the earth, fainteth not, neither is weary? . . . Even the youths shall faint and be weary, and the young men shall utterly fall; but they that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint."

In correlative passages from "Science and Health with Key to the Scriptures" Mary Baker Eddy states, "The scientific and permanent remedy for fatigue is to learn the power of Mind over the body or any illusion of physical weariness, and so destroy this illusion, for matter cannot be weary and heavy-laden." "The consciousness of Truth rests us more than hours of repose in unconsciousness." (218)

The Golden Text is from Psalms (91:1), "He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty."

Having been a candidate for elective office, I am more than ever aware of the great but often unrecognized, contribution which the local independent newspaper makes to our community life.

Again, thank you for your cooperation and help.

Sincerely,  
Dr. Merle H. Boyce

Former Narbonne High Instructor Retires After 36 Years Teaching

Two members of the Harbor College faculty are retiring at the conclusion of this semester. They are Miss Florence Murphy, one time head counselor; and Ellis Hunt, mechanical drafting instructor and former teacher at Narbonne High.

After 37 years of teaching, Hunt will retire at the end of this current semester. Hunt was born in Sacramento where he received his early schooling. He entered high school in San Francisco but finished the last three years at Polytechnic High School here in Los Angeles.

He held several jobs before he became a teacher. One of his first jobs was that of a pattern maker, with a salary of a dollar a day. He later went to the Main-Iron Works in San Francisco, to make boilers and heavy machinery.

Having a desire for drafting, Mr. Hunt left the iron works in 1921 and went to work as a draftsman for the Department of Water and Power in Southern California.

In 1922, he became a field draftsman in the Southern California Edison Company and worked on the power line that was being put over the Mohave Desert.

Hunt took ICS courses in drafting and engineering for further training. After finishing the course, he matriculated at UCLA and Long Beach State.

After his preparatory schooling, Hunt entered Narbonne High School in 1926, where he taught drafting for 30 1/2 years.

While at Narbonne he was department chairman of industrial arts, and was twice president of the faculty association. He was also stagecraft director for several years, and was director of

Construction of pedestrian "walk-don't walk" traffic signals at the intersection of Eshelman Ave. and Lomita Blvd., was authorized last week by the Board of Supervisors.

Supervisor Burton W. Chace said the "projected signal modification will help to maintain pedestrian as well as motorist safety."

Installation of the signals will be scheduled by the Los Angeles County Road Department pending completion of other portions of the current project load.
