"The way things are going—and considering a big population boost in August and September with people moving here to register their children in school—I'm going to guess that California will be the most heavily populated state by October 1," Hahn said.

State head counters estimate California will top New York about the time both states have a population of 17.3 million.

"It looks like that will be sooner than we think," Hahn said.

GAGE IN THE SALE OF ALCO-HOLIC BEVERAGES.

July 27. 1962
