

LITTLE BOY DASHES INTO STREET; DIES

Sister Angela Reports Death of 3-Year-Old

Last Thursday night, Sister Angela of Little Company of Mary Hospital reported to police the death of little Kenneth Allen, 3, of 3821 W. 185th St., Torrance.

Time Running Out on UCLA Scholarships

Only four days remain for local high school seniors to file applications for UCLA Alumni Assn. scholarships, District Chairman D. E. Johnston warned today.

All necessary forms must be marked no later than Feb. 28, he said.

Outstanding high school seniors who will enter UCLA in September are eligible for the awards of \$200 and \$400. Applications are available from high school counselors.

Winners from high schools in this area will be selected by Johnston's district committee of UCLA graduates. The top winners will be nominated for memorial and special scholarships ranging up to \$1000.

This year the UCLA Alumni Assn. will award over \$40,000 to approximately 165 students as a part of its continuing program to encourage outstanding students to attend the University, Johnston said.

Little Kenneth had been struck by a car on Feb. 11 when he darted out into the street around a mail vehicle.

As he ran out into the street, a car driven by Eugene A. Hamen, 43, of Glendale, struck little Kenneth.

"I had just pulled away from the curb and was going west on W. 185th when I saw the little boy dart out in front of my car," said Hamen.

"I tried to swerve my car, but I couldn't miss the child," he added. Hamen told Torrance police that he was going about 20 miles an hour, in second gear, when the accident occurred.

Standing nearby was Ken Bradley, 20, of 1907 W. 253rd Place, Lomita, the mailman who was driving the parked mail vehicle.

"I saw the little boy earlier and had asked him to stay away from my mail cart," said Bradley. "Later, I noted that the child had returned, but before I could get back, the little boy had run out into the street."

The accident took place in front of 3915 W. 185th St.

It is very difficult for a little boy at play to realize that death lurks in the busy streets of a city.

WILL YOU PLEASE HELP ME?

MY NAME IS JILL Adams, and I live at 22516 Kathryn Ave., in Torrance. On Valentine's Day, I was bit by a dog and he ran away. He had a lot of white on his neck and chin, and tummy. He was black on his arms and face and the back of his neck, and body. He had a little tip of white on

his tail. If you know, or see, such a dog, will you please call my mommy at FRontier 5-7188 and tell her. If we don't find the dog in five days, I may have to take a lot of shots, and I don't like shots. Thank you.

Part Three:

Real Life Adventure . .

(Third of a series of three)

While Vinciane Clesse, from Belgium, has been here attending Torrance High School and living as a member of the George Crabtree family at 1753 Gramercy Ave., an American girl from Albert Lea, Minn., was living with Vincy's family in Brussels, Belgium.

The Minnesota girl, Sue Evenson, returned to the U.S. Jan. 13. Americans under the American Field Service's international scholarship program go and return earlier than those students from other countries come here and return home.

While Sue was in Brussels living with Vincy's family, a bond of friendship which may last as long as life itself was forged to link the American cities of Torrance and Albert Lea to a home in Brussels.

Sue acted as interpreter to read Vincy's letter to her family. Vincy writes in English to improve her command of what is now her second language.

"I was getting so many letters from different people at home that I didn't have time to answer them all," said Vincy, "so I wrote one big letter to them all."

Sue, in Belgium, would read Vincy's letters to her family and friends.

Now, Sue is back in Albert Lea and is writing letters, too, to her friends and "family in Belgium."

This example typifies the friendships which are being built through the international scholarship program. Such friendships will grow in number and in the depth of their meaning as the years go by. Truly, to those who are taking part in the building of those friendships, this is an exciting true-life adventure.

It is a real-life adventure which links more than 4000 homes around the world in a common bond — those homes where 2700 boys and girls from abroad are living this year in the United States, and those in which about 1700 Americans spent a year in other countries about the world.

Now in her seventh month

WE'LL GO HERE, they seem to be saying as they look over a map. From left to right are Sandy Crabtree, Vinciane Clesse, Mr. and Mrs. George Crabtree. Today, they are in Ensenada, Mexico, to show Vincy another country while she is living with the Crabtrees at 1753 Gramercy Ave., in Torrance. Later, the Crab-

trees plan to take Vincy to Sequoia National Park. Vincy and Sandy are seniors at Torrance High School, with Vincy attending under the international scholarship program of the American Field Service.

tree's daughter, Sandy, and talk with Vincy you can see how deeply this feeling lies within Vincy. It is a feeling that runs deeply within her, because Vincy, in spirit and in fact, is a warmly-loved member of the Crabtree family. She easily and naturally speaks of Mrs. Crabtree as "mother." There is a closeness between Sandy Crabtree and Vincy that is far more than sisterly. They are about the

same age, wear each other's clothes, and both are seniors at Torrance High.

In truth, Vincy will leave a home and family in the United States to return to a home and family in Belgium.

She wants to go, but she doesn't want to go. It is only natural that this creates a situation which she doesn't care to think about before the time for parting comes.

There is much to keep her busy, so Vincy doesn't have

to think about it, except when some outsider intrudes to ask questions such as those asked to get material for these stories in The Press.

Today, she and the Crabtrees are in Ensenada, Mexico, as a part of the family's effort to show Vincy as much of the West Coast area as possible while she is here. Later, they intend to go to Sequoia National Park.
