WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance.

This is the "grand-daddy" of every new telephone handset we install. It's a picture of the steel model from which we make molds for plastic telephone handsets. And it's as precision perfect as

modern men and machines can make it. Last year from this model came more than 11,000,000 handsets to go with every phone from Little Princesses to large Call Directors. It's a "shining example" of how good design pays off in mass-production—and telephone economy.

When out-of-town family or friends have a birthday, telephone your greetings. It's easy and it's fun to send your birthday wishes across the miles by telephone.

Additional listings in the telephone book for other members of your family are a good way to insure they won't miss out on any calls. You can find out more about this service with a call to your telephone business office.

Planning to move? It's a good time to start planning for those extension phones you've always wanted. At no extra installation charge we'll put in extension phones when we install your new service. If you'd like some help in deciding the kind of phone you want, and where they can be placed to serve you best, just call the telephone business office or talk to your telephone service man.

One of our safety men said it, and all our telephone drivers agree: Fastening your seat belt is one "snap" decision you'll never regret.
