DO YOUR TIRES HAVE Safety - Shoulders? ... NOT UNLESS THEY'RE 1963 DUNLOPS!

Only Dunlop has the revolutionary patented tread design you've been reading about in ads appearing in SPORTS ILLUSTRATED, TIME, BUSINESS WEEK and other publications. It's called the "Safety-Shoulder" and it stops wheel whip and road wander caused by uneven road surfaces and sharp pavement edges. It also gives sports car control on sharp curves—even in the rain. Try a set and you'll never drive on an ordinary tire again.
