

UP WE GO — This overhead view, swinging from the top of the crane at left, was taken by The Press' young summer photographer, Mitch Major. Man on the ground at right, Dick Emery, photographer for another newspaper, stayed on ground at Torrance City Hall, watching, as Mitch went soaring above city hall roof to take photograph below.

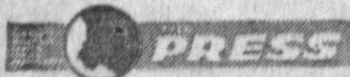

AIR CONDITIONER is eased down the roof of Torrance City Hall by two workmen. The \$5186 unit was installed this week in the council chambers, where sweltering heat and large crowds have made transaction of city business uncomfortable. (At least, that's what we were told was the trouble.)

RECORD A FACTOR

The traffic violator's previous record should be a deciding factor in how strong his sentence should be. The public must be protected from those drivers who become violation or accident repeaters deliberately or from incompetence.
