Al Ortale Rambler

EMPLOYEES of International Harvester gather in front of Al Ortale Rambler dealership in Torrance after driving cars to the dealership to be used for transporting handicapped children to schools. When a change in method of transporting the children to and from Columbia Retarded School in Torrance went amiss and left the children without bus service, Al Ortale and International stepped in and provided cars to transport the 189 stranded children.

THANKS!
We sincerely offer our "thanks" to the people of the Torrance and the South Bay Area for their gratifying response to our "homespun" type of sales and service programs.
Modestly, we have won every contest on a major basis sponsored by American Motors, including the wonderful trip to Europe in 1982.
Many other major awards for volume selling and dependable services are also included in the honors, but the one most treasured by the long list of **SATISFIED CUSTOMERS.**
AL ORTALE

FRANK BOOTHE
Fleet and Truck Manager

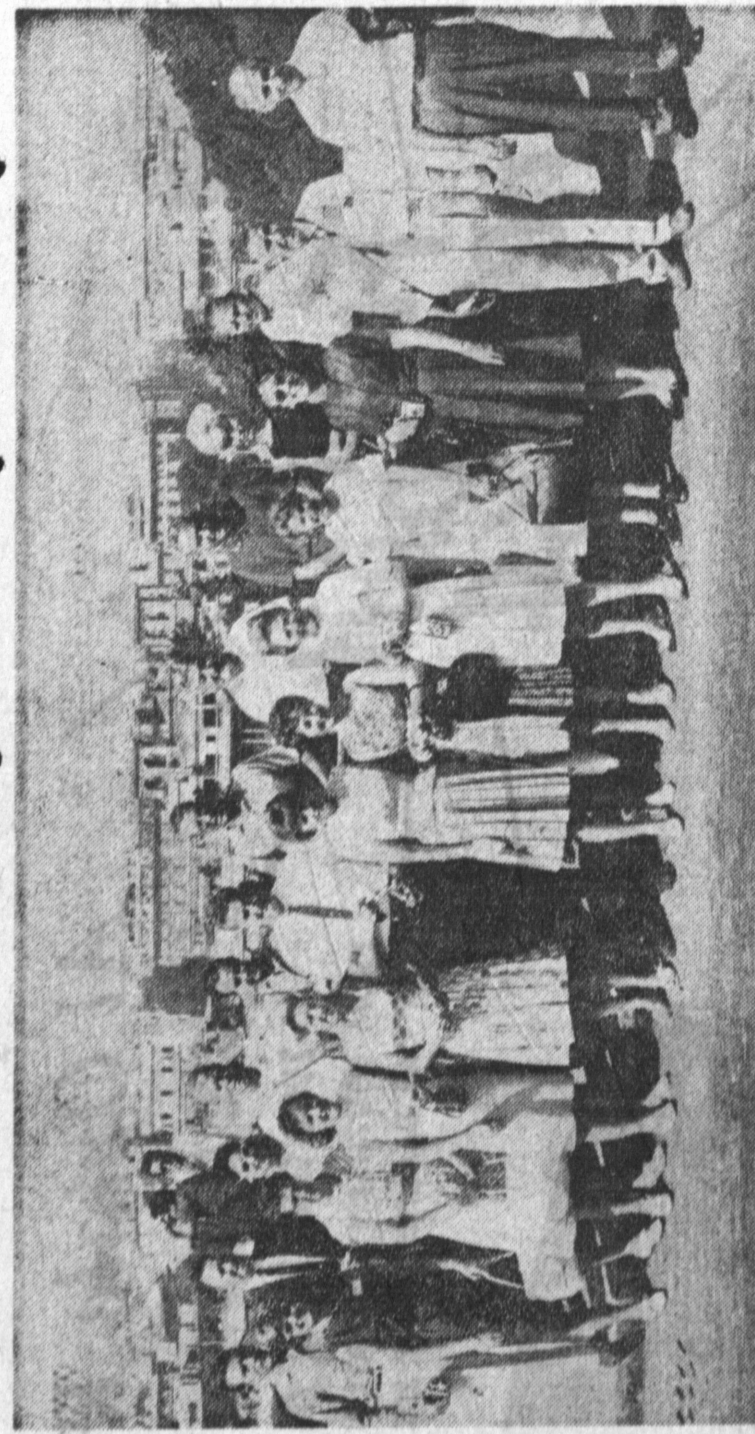

GENERAL SALES MANAGER Keith Muir of Al Ortale Rambler, points out features of Rambler to Suzi Johnson at the auto show held at South Bay Center.

IN ROME, with winning Rambler dealers from all over the nation, Al Ortale (center) of Torrance poses on a bluff overlooking St. Peter's Basilica.

NEW FACILITIES
Travelers along Hawthorne Boulevard will be amazed viewing the 14 car display brilliantly lighted on the mammoth new showroom with the spectacular glassed-in conference rooms. An additional fully lighted outdoor new car display are will afford the purchaser ample opportunity to leisurely inspect the 40 or more delivery-ready cars. Our policy of allowing the customer to sell "himself" rather than be sold, has built our reputation — in fact, our reputation sells more cars for us than any other reason — including price.

USED CARS
Since the true lifeline of a new car dealership is its used car department we have endeavored to make ours one of the largest and finest in Southern California. All cars for sale to retail customers are under the supervision of our used car manager for reconditioning and detailing. In this manner the cars must meet the standard set for American Motors Select Used Cars or they are sold to the wholesale trade or salvage dealers. This large division, located at 20611 Hawthorne Boulevard, enables us to accept any make of car as a trade at the highest appraisal figure thereby affording the best deal customer the best deal possible.

LEASING
For those business and professional individuals of the area who prefer leasing a car to that of purchasing, we are now formulating our own leasing company and will offer all makes of cars through this division of the firm. We are acceding to the requests of some of the people of the area in offering this service.
I-H TRUCKS
We are increasing our line of International Trucks to meet the demands of our dealership for the sale and service of Scouts and Trucks and must devote a larger area to this operation. Many of the heavy trucks as well as Metros, Travelalls and the permanent sales inventory. Parts, accessories, tools, equipment for servicing and factory trained mechanics located at 1885 Torrance Blvd. in Torrance.

BODY SHOP
The full facilities for Body and Paint will soon be available.
The latest type body and paint equipment as well as qualified personnel will serve to satisfy all types of damaged automobiles in these fields. In conjunction with this function, all sheet metal for large body reconditioning will be carried in the body shop parts department.
Congratulations and Best Wishes
