

CARPET 3 ROOMS WALL TO WALL \$299

(Average 32 square yards living room, dining room and hallway)

MOHAWK LUXURY-NYLON VALUE!

COMPLETE — PAD AND ALL! NOTHING DOWN . . . LOW AS \$10 MONTHLY!

Here's the carpet America has wished for—and now Mohawk has loomed it. "Park Royal" is an inspired design—a graceful cameo effect, with sturdy high-low loop construction, and face of 100% Cumuloft* continuous filament nylon. This remarkable carefree carpet won't fuzz, pill or shed, is moth proof, non-allergenic, and jealously guards its resilience and beauty. It hides traffic patterns, resists crushing and wear. Stains and spots simply wipe away, since the fibers do not absorb liquids. Colors remain deep and vibrant, locked in to the very core of the fibers. Park Royal is a real achievement from the fabled looms of

Mohawk, world's largest carpet mill. And while our stock lasts, we can install this superb new broadloom in your home wall to wall so thriftily there's no reason to do without it for even another week! 32 yards, enough for an average 3 area installation, including pad and all labor! Larger or smaller areas priced in proportion. We measure, cut, sew, pad and lay wall to wall, everything included, for nothing down, little as \$10 monthly. Look into it. If you can't come in right away, phone us. Ask about Mohawk's new Park Royal!

*Reg. TM of Chemstrand for its continuous filament textured nylon yarn.
