

# Chief Operator Cited for 35 Years' Service

In commemoration of her 35th year with General Telephone Co., Ann M. Meyer, chief operator for the utility's South Bay division, was the recipient this week of a service award emblem presented to her by Bernard LeBaron, South Bay division manager.

Mrs. Meyer began her career with General in Ocean Park as an operator. She then worked in West Los Angeles in the same capacity. In 1941 she was transferred to Redondo Beach and promoted to the position of evening chief operator.

From 1933 to 1954 she was again transferred to Santa Monica where she worked as a special trainer in the traffic training department. She then returned to Redondo Beach where she resumed the position of chief operator.

Prior to working for General Telephone, Mrs. Meyer worked for the Southwestern Bell Telephone Co. in Kansas City, Mo. This was from 1920 to 1924.

Born in Kansas City, Kan.,

# New Plan Announced For Army

A new "Application for Recall Program" for retired Army enlisted men has been announced by SFC Frank J. Zelenak, Army recruiter in Torrance.

Zelenak said the program permits all non-disabled retired enlisted men, grade E-5 or above, who have not yet reached their 50th birthday and who have completed less than 27 years of active federal service to apply for recall to active duty under the program.

Applicants must meet retention physical standards, he said.

Information about the program may be obtained by telephone at FA 8-7069, or by visiting the recruiting station at 1319 1/2 Sartori Ave.

# Committee Will Study Local Industry Needs

To understand problems of local industry and assist in the future growth of these firms, the Industrial Development Committee of the Torrance Chamber of Commerce has established a sub-committee to conduct a plant visitation program, according to Arthur L. Reeves, chamber president.

Known as the Established Industries Sub-Committee, the group will undertake a survey as to why manufacturing, processing, transporting and distributing organizations locate in Torrance. The committee will make a detailed study of types of firms situated here and how the chamber may service them, Reeves stated.

Bruce Jones, chairman of the Industrial Development Committee, summed up the activity by stating, "Torrance has a proud and dynamic industrial complex, but to retain this position of leadership, we must search out and recognize our shortcomings and work hard to correct them."

## The 1965 Ford rides quieter than a Rolls-Royce!

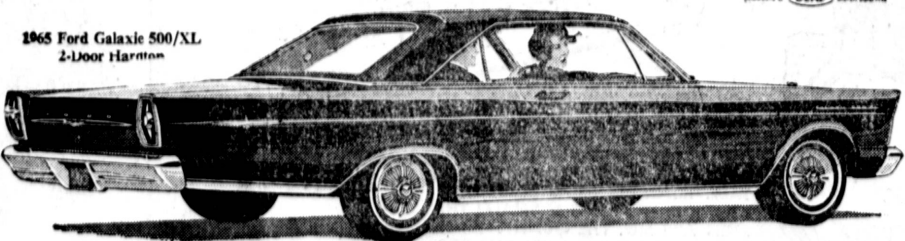

Hard to believe? Maybe . . . but it's true. The Ford ride *proved* quieter in tests conducted by the world's leading acoustical consultants (Bolt, Beranek and Newman, Inc.). These tests were certified by the U. S. Auto Club. But come make your own test. And be ready for many other Ford surprises.

And gives you luxurious new features like these . . .

**Silent-Flo Ventilation** (on 4-door hardtops). Fresh air is drawn in, stale air removed even with all windows closed.

New ultra-luxurious Ford LTD has quilted nylon-and-vinyl upholstery, thick cut-pile carpeting, rich walnut-like paneling in doors and instrument panel, and (like all Fords) —spaciousness. Even more hip, shoulder, knee room than last year.
