About Cars and Things
by
Ray Vane

SAFETY FEATURES on cars
are a BIG THING this year.
Chrysler, for instance, has
made standard equipment
such items as padded dash-
es, front and rear seat belts,
variable speed electric
windshield wipers, wind-
shield washers and back-up
lights. Other car makers
have taken similar action.
These items were made
standard because of some
prodding by the govern-
ment to compel the public
to buy items that might
save their lives. For, these
safety features have been
offered by Chrysler for
many years as optional
equipment.

One item that Chrysler
has had exclusively for
some thirty years is the
SAFETY RIM WHEEL. This
is a way of building a wheel
so that it minimizes the
chances of the tire working
off the rim if the tire is
punctured or blows out,
while you get the car down
to a slow controllable speed.
Sometime when you come
in, let us show you how it
works.

The big thing about safe-
ty, however, is really the
driver. We all know how too
much speed, too much
booze, or too much day-
dreaming is the cause of
most accidents. The various
governments have been try-
ing to do something about
this too, through traffic
laws and police enforce-
ment.

This year, if you buy a
new car, you will at least
have the equipment to play
a better game of safety.
And, with our Chrysler-
Plymouth line, it comes in
a beautiful package.

Come see, 2909 Pacific
Coast Hwy., Torrance.

Ray Vane
Your Chrysler-Plymouth Man

**WHAT'S THE USE OF A
USED VOLKSWAGEN
STATION WAGON?**

Same as a new VW Wagon. It holds 170 cubic feet of things, seats
9, and has 21 windows. Used VW Wagons have something
that even new ones don't — our 16 point safety and performance
check. Come in and see them.
