

# Second Honeymoon For the Kids

It's fairly obvious that once again our kids must have distributed handbills door-to-door with a detailed account of every move my husband and I make. What we say, what we buy, whom we owe, besides keeping everybody posted with bulletin reports should we leave the house and travel more than two blocks from home. Sometimes I think they're really agents for the C.I.A.

Not that my husband and I do anything wrong, but when leaky foundation walls with a waterproof seal quickly and easily... Portable water purifier that provides pure water at a finger touch and makes use of a filter treated with ionized silver which sterilizes the water... "Make-A-Check-er-board Kit" for young boys teaches basic woodworking techniques.

we make a weekend trip to the Monterey Peninsula—100 miles away—it's a little embarrassing to return and have everybody—including the dry-cleaning man—ask about your trip and complain that they didn't receive postcards. Moreover, our kids had to embellish it by referring to it as our "second honeymoon."

They keep reading those articles in women's magazines on "Making Marriage Work." Thus, my husband and I can't go out for a simple dinner anymore without Kathy or Elaine labeling it as "Mom and Dad are out trying to find each other." They might have the right idea at that, because we have an easier time in a restaurant than our cluttered living room.

Actually, I'm a little surprised that the dry-cleaning man didn't ask, "Did you manage to re-ignite the flame

of your lost youth?" because that's what Kathy asked. I don't know where she picked up THAT line—maybe from her college course on marital relations or from "True Confessions" magazine.

Mind you, I'm not opposed to parents getting away, even if only for a mere 48 hours, but by the time you finish getting things ready before you can leave, you hardly feel that you are going on a "second honeymoon." A better term would be "rest cure."

First, there is the inevitable eight loads of clothes to wash so that the kids will have clean clothes.

Also you must stock the shelves with enough food to reassure the kids that in case they're snowed out when you're away, they'll still eat in the style of Henry the Eighth.

And, since the grandpar-

ents are doing the baby-sitting, you don't want to leave them with six months of accumulated chores they'll insist on doing. This means sweeping the garage and taking a car-load of junk to the dump, defrosting the refrigerator, cleaning the oven, among 101 jobs.

About the only solution remaining that I can think of for parents to "rediscover each other and search for the true meaning of happy wedlock" (to quote further) is to stay home. And send the kids on a "second honeymoon."

## Two Sisters Will Direct Saxon Club

Two sisters have been installed as president and vice president of the North High School chapter of the Future Homemakers of America.

Marilyn McHugh, president, and her sister, Kathy, were installed during a mother-

daughter banquet at the Lois Olkie, secretary; Emily school. They are the daughters of Mr. and Mrs. Paul C. McHugh of 17017 Ermanita Ave.

Other new officers include: Evangelina Crews is sponsor of the club.

## Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where a doctor's observations were continuous over a period of many months! In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H®. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.
