

# Regulations Revealed For Fishing

The 1966 sport fishing regulations will go into effect March 1, the California Department of Fish and Game reminded anglers today.

Most regulations for 1965 will apply except for the new or changed regs adopted by the Fish and Game Commission in December. Beginning March 1, here are some of the new regs anglers can look forward to:

Underwater spear fishing will be allowed in Almonor Lake, Plumas County; portions of the American River in Sacramento County and the Yuba River in Yuba County; and new portions of Berryessa Lake, Napa County.

Also, lamprey eel, carp, hardhead, squawfish, and sucker may be taken by hand as well as by spear in underwater spearfishing waters.

Night fishing will be permitted in portions of Madera, Fresno, and Tulare counties, in Kings County, and in Woodward Lake, Stanislaus County. All species of fish may be taken.

Butt Valley Lake, Snake Lake, and Smith Lake in Plumas County will open to night fishing for catfish, carp, hardhead, squawfish, and sucker. Also opening to night fishing for these five species will be a portion of the Lower Russian River in northwestern California.

There are many special closures, seasons, and bag limits for various waters in the State. These are listed in the 1966 sportfishing regulations. A copy may be obtained wherever fishing licenses are sold.

# Emphasis Placed On Fishing

Fishermen attending the 21st Annual Los Angeles Sportsmen's Vacation & Travel Show at Pan Pacific Auditorium, March 25 through April 3, are almost certain to get hooked.

H. Werner Buck, producer of the nation's largest recreational extravaganza, announced that more than \$1,000,000 in the latest fishing gear would be exhibited on "Tackle Row."

"This will be the most comprehensive exhibit of fishing gear ever gathered under one roof," Buck exclaimed. The nation's leading manufacturers will show complete lines, ranging from feather-weight flies to the heaviest gear needed for deepsea monsters like marlin and mako shark.

Many of the manufacturers are sending out special teams of factory experts who will demonstrate the merchandise and point out the products' new features. Some of the booths will have repair units where visitors may bring in their reels for immediate repair.

Two giant casting ponds will be available for visitors to test-try the new equipment.

# Spring Harness Season Nears Santa Anita

World record-holder Adios Vic, the sizzling-fast four-year-old pacer owned by Victor and Morris Zeinfeld, of Chicago, heads a string of 46 standardbreds which Jim

(The Menace) Dennis will campaign during the spring harness racing season opening at Santa Anita March 17. Dennis, the 1965 Hollywood Park driving champion, has filed an application to race his vast public stable at the four-week Santa Anita harness meet, which immediately follows the close of the current flat racing season, it was announced today by Western Harness Racing Assn. officials.

Only horse ever to defeat Bret Hanover, voted "Horse of the Year" in both 1964 and 1965, Adios Vic is one of four performers in the Dennis stable who have cracked the fabled 2:00 mark for a mile and his 1:56 3/5 victory over Bret Hanover last September at Indianapolis ranks among the 10 fastest race miles of all time.

Other two-minute milers in the Dennis barn are Leader Pick, Golden Go, and Mystery Key. Dennis also boasts a remarkable number of \$100,000 winners, five members of his stable having attained that plateau in lifetime earnings.

Leading the dollar parade are Leader Pick (\$168,835), Adios Vic (\$148,860), Avalon Bomber (\$107,272), Dayton Freight (\$106,679) and Donner Hanover (\$100,239).

WOMEN ENGINEERS Suzanne Burr, 5006 Vista del Vegas, is one of 15 co-eds at the University of Southern California to become charter members of the first California student chapter of the Society of Women Engineers. Miss Burr will serve as secretary-treasurer of the new group.

FLAMES ERUPT... Paul Taylor of Los Angeles was seemingly trapped inside a burning race car after collision with Jimmy Roessler of San Bernardino at Ascot. Roessler had his protective harness

off in seconds, jumped out of his car and dove through flames to help Taylor out of crashed car as fire crews moved in. Modified roadsters race for the first time today at Riverside International Raceway.

# Grunion Due to Come Ashore

Grunion hunters are expected to turn out this coming week when the elusive little fish are due to stage their first four-night spawning run of 1966 on the sandy ocean beaches of southern California.

Runs lasting about an hour each are expected to begin about 10:30 p.m. on Tuesday, 11 p.m. on Wednesday; 11:40 p.m. on Thursday; and 12:30 a.m. Friday night.

A sportfishing license is required for grunion hunters 16 years old or over. A grunion may be taken on the beach or in the surf by hand only. No device of any

kind may be used, and it is unlawful to dig holes in the sand to trap the fish. There is no bag limit, but sportsmen are urged to take only as many as they can use. Grunion are considered a real delicacy when scaled and deep-fried to a golden brown. The slippery little silver-sides may not run right on schedule on every beach or on every night they are supposed to run, the Department of Fish and Game cautioned. Still, patience, fortitude, a willingness to get wet and the luck to be on the right beach at the right time usual-ly pay off in some tasty eating.

Beaches that often have good grunion runs include the Coronado Strand, Mission Beach, La Jolla, Doheny Beach, Corona del Mar, Newport Beach, Huntington Beach, Belmont Shore, Long Beach, Cabrillo Beach, Hermosa Beach, Venice, Santa Monica, Malibu, Santa Barbara and Pismo Beach.
