DANCE CHAIRMEN . . . Nancy Enderson and Michael Wilby, chairmen for the annual "Sweetheart's Ball" at South High, are pictured as they check last-minute posters for the dance. The semi-formal dance, hosted by the orders of Apollo and Athena, Spartan service organizations, welcomed alumni of the two clubs back to campus. The South High Stage Band provided music for the Friday evening dance.

Law in Action

The average citizen is likely to come in contact with the municipal court if he ever goes to court at all. All cities over 40,000 population can create a municipal court to handle all "small matters." Minor traffic violations are the most common. The municipal court has power over all misdemeanors. All "felonies" (more serious crimes) are tried before the superior court though preliminary hearings on felonies or search warrants on felony cases may come before the municipal court.

THE MUNICIPAL court's procedure is much the same as the superior court. The municipal court tries lawsuits that involve less than \$5,000 claimed by the plaintiff. Thus small disputes over debts, accidents, or injury cases all come before the municipal court.

The municipal court often sits as the small claims court. For a part of the day the judge will hear small cases involving less than \$200. Minor disputes—often involving landlords, neighborhood disputes, or very small accidents—are settled usually in less than half an hour. There are no lawyers, unless one party just happens to be a lawyer.

AS A RULE the plaintiff who wants special relief, such as an injunction (an order to make a person stop doing some act) must go to the superior court. Proceedings, adoptions, guardianships, and the like are open to the public. Any body can go in and see what's going on. Records of complaints, probates, divorces, adoptions and the like are open to the public.

Local Man Visits Congressman Bell

Robert W. Sabel, 341 Paseo de Granada, was among Californians who visited Congressman Alphonzo E. Bell in Washington during the past week, the Congressman's office reports.

Bringing Up Baby

Go, go, go. Wonder what your sit-about turns scoot-about. But once your "sit-about" starts crawling, there are pertinent things to do.

Floors should be waxed for slip or any small objects baby might pick up and swallow. Insect repellent or dropping plants should not be left to sample.

Stairs should be sealed off with a folding gate . . . baby confined to an area within your eye's reach.

Overalls are in order to protect tender knees; soft-soled shoes to guard tender toes. Bush should have plenty of wiggle-room so toes 'n' toes can move freely.

Overalls make good crawler outfits because the fabric is so washable and washable. Tips and notes: (1) After washing, if you brush carefully while it's still slightly damp, they will re-shrink nicely. (2) If you buy overalls with patch pockets, you can use patches as patches when knees wear through.

Cooky son, that's nutritious, too. Carber Animal-Shaped Cookies for toddlers are fun to munch too for teaching animal names; have nutritional benefits, too. (They have twice as much protein as most other cookies, plus B-vitamins in the icing.)

What's more, they're crunchy hard for good biting exercise; delightfully flavored for happy eating. Carber's Baby Foods, Box 72, Fremont, Michigan.

Science Shrinks Piles

New Way Without Surgery

Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly and, while getting relief from pain, a local reaction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where a doctor's observations were continued over a period of many months. In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among the sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or other agents of any kind. The secret is a new healing substance (DYN-9) — the discovery of world-famous research institution, already, Bio-Dyn, Inc. is now using for healing hemorrhoids on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation II. Ask for individually packaged suppositories or Preparation II Ointment with special applicator. Preparation II is sold at all drug counters.
